INTRODUCTORY SECTION

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2021 CITY OF PLANO, TEXAS

ANNUAL COMPREHENSIVE FINANCIAL REPORT 2021

January 6, 2022

To the Honorable Mayor, Members of the City Council and Citizens of the City of Plano, Texas:

The Annual Comprehensive Financial Report (ACFR) of the City of Plano, Texas (the City or Plano), for the year ended September 30, 2021, is submitted in accordance with Section 3.14 in the City Charter.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose.

Weaver and Tidwell, L.L.P. has issued an unmodified (clean) opinion on the City's financial statements for the year ended September 30, 2021. The independent auditors' report is located in the beginning of the financial section of the ACFR.

This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A) and should be read in conjunction. The City's MD&A can be found immediately following the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements.

City of Plano Profile

The City of Plano is the largest city in Collin County, located in the southwest corner of the county, approximately 20 miles north of downtown Dallas. There are currently 72.2 square miles of land in the City's boundary.

The City was incorporated on June 2, 1873. It was subsequently chartered on June 10, 1961, and operates under a Council-Manager form of government. The City Council is comprised of a Mayor and seven members and is responsible for enacting ordinances, resolutions and regulations governing the City, as well as, appointing the members of various statutory and advisory boards, the City Manager, the City Attorney and a Municipal Judge. The City Manager is the chief administrative officer of the government and is responsible for the enforcement of laws and ordinances, the appointment and supervision of the Deputy City Managers and heads of departments and the performance of functions within the municipal organization.

Financial reporting of the entity (the government) includes all the funds of the primary government (the City of Plano as legally defined, in addition to three blended component units as discussed in the accompanying footnotes), as well as, the Tax Increment Financing Districts and Tax Increment Reinvestment Zone, reported as discretely presented component units. Discretely presented component units are legally separate entities and are not part of the primary government's operations.

The government provides a full range of services including police and fire protection, environmental health, community development, building inspection, traffic control, parks and libraries, the construction and operation of water, sewer, drainage, sustainability and environmental services, streets and infrastructure and convention, tourism and cultural events.

The Plano Housing Authority, a related organization, is not a part of this report as the City's accountability does not extend beyond making the appointments of the Plano Housing Authority Board.

Place 5

Local Economy

As noted in the prior year report, in March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. This contagious disease outbreak brought adverse public health developments, affected public education, workforces, economies and financial markets globally. During the last year-and-a-half, the City faced a global pandemic, economic downturn, a historic winter storm and social unrest. These unforeseen and uncontrollable factors had significant impact on the City. While the current economy is experiencing recovery and continues to normalize, the City has positioned itself to meet citizen and business needs.

Although Plano's economy has been negatively impacted by the pandemic, the City continues to benefit from many favorable conditions including a stable, diverse economic base and a desirable location for work and living.

Plano is a community that offers exceptional housing, award-winning schools and a dynamic business climate, all of which are strong factors in the success of the City's economy.

Since 2016, Plano's population has grown an estimated 4.1% to 288,100 in 2021. According to residential development projections by the City's planning department, it is projected to grow to 302,800 by 2030 and to 313,500 by 2040.

According to the U.S. Census Bureau, the median household income of Plano is \$95,602.

Plano is ranked #10 for the "Best Cities for Jobs" according to *Wallethub.com*. Cities were ranked based upon job market and socio-economics.

Forbes.com ranks Plano as the top city for renters in their "Best Cities for Renters 2021" listing. According to Forbes.com, data was collected for the 100 largest cities in the United States and analyzed for the low ratio of rent to income, amenities, crime and burglary rates and weather and natural disaster risks.

Smartasset.com ranks Plano the 3rd in their list of "Best Cities to Work from Home in 2021".

The Trust for Public Land's annual ParkScore index ranks Plano's Park system as the 15th best in the U.S. and the best in Texas. The index ranks park systems on five factors: access, investment, amenities, acreage and equity.

Smartasset.com named Plano 39th on its list of "Best Cities for First-Time Homebuyers – 2021 Edition". They considered home market favorability, affordability, livability and employment.

Plano is the fourth-best city to buy a house in the nation, according to the Best Places to live rankings by *Niche.com.* In this ranking, Plano received an A-plus rating in public schools, jobs, family life and diversity, as well as, nightlife, health and fitness.

WalletHub.com's Best & Worst Places to Raise a Family ranked Plano the 4th best place to raise a family. WalletHub compared more than 180 U.S. cities considering 48 key metrics, including essential family dynamics, the quality of local school and health-care systems and opportunities for fun and recreation.

Keep Texas Beautiful (KTB), a statewide grassroots environmental and community improvement nonprofit organization, recently named Plano a Gold Star Affiliate. Gold Star recognition is the highest membership recognition status any community affiliate can achieve. Gold Star Affiliates educate and engage community members, actively recruit and manage volunteers and host cleanup and beautification events throughout their community.

Plano remains one of only a few cities in the United States receiving an "AAA" bond rating, the highest possible bond rating from Moody's Investor Service, Standard & Poor's and Fitch, Inc. In issuing their ratings, they praised the City for its stable financial position driven by conservative budgeting, as well as, its large and diverse tax base and strong management practices.

Given Plano's continued pro-business attitude and enthusiastic accommodation of industry, the City's economy continues to prosper. The following categories represent key factors that impact Plano's economic and financial success:

Property Tax Revenues

Property tax revenues are the City's largest source of funding. According to the Collin County and Denton County Appraisal Districts, the original certified property appraisals increased 3.5% for fiscal year 2021, with 51.8% of the increase coming from new property. The tax rate remained the same at 44.82 cents. Tax collections for fiscal year 2021 totaled \$200.3 million, an increase of 3.3% from the prior year.

Sales Tax Revenues

After property tax revenues, the General Fund's second largest revenue source is sales tax generated from a variety of businesses operating in the City. Sales tax collections are produced primarily from Plano's sizeable retail base, which includes numerous retail store facilities, Historic Downtown Plano with Dallas Area Rapid Transit (DART) light rail access, as well as, hundreds of other specialty shops and major retailers.

Sales tax allocations to the City totaled \$92.5 million from October 2020 through September 2021, an increase of 6.7% compared to fiscal year 2020, as the economy is recovering from the COVID-19 pandemic.

Employment

The unemployment rate in Plano at September 30 decreased from 6.3% in 2020 to 3.8% in 2021. This compares favorably to the unemployment rate nationally of 4.8% and 5.6% statewide. A strong business atmosphere, coupled with a highly educated and motivated workforce, continue to draw diverse companies to relocate to Plano. The four largest job industries are trade, transportation and utilities; professional and business services; education and health services and government. According to the U.S. Census Bureau, 57.2% of Plano residents have a bachelor's degree or higher.

Plano's large businesses, employing 1,000+, include: Bank of America, Capital One Finance, Hewlett Packard Enterprise, Toyota Motor North America, Ericsson, Liberty Mutual Insurance, NTT DATA, JPMorgan Chase, Fannie Mae, PepsiCo, Frito-Lay, Texas Health Plano, Medical City Plano, FedEx Office, USAA, Steward Systems and Samsung Electronics America. Employing 500-999, companies having significant operations in Plano include: AT&T, Baylor Scott & White Medical Center — Plano, Children's Health Plano, The Heart Hospital Baylor Plano, Palo Alto Networks, Crestron Electronics, U.S. Renal Care, PennyMac Financial Services, Cigna, Abbott, Tyler Technologies, Raytheon, Reata Pharmaceuticals, Transamerica, Samsung Telecommunications and Pizza Hut, U.S. This type of environment creates a broad range of employment opportunities for Plano and area residents and is a significant business component to the local tax base.

Job Growth

In fiscal year 2021, the following businesses announced relocation and expansion:

Samsung, a South Korea-based consumer products firm, is expanding its regional office in Plano. The firm is adding a 60,000-square-foot lease in the Legacy Central campus at 6625 Declaration Way.

Argano, a Dallas-based technologies firm, has expanded their office by 32,000 square feet at 6100 W. Plano Parkway. The expansion will bring an additional 90 employees.

LinTec of America, an Arizona-based semiconductor manufacturing firm, relocated its manufacturing facility to 2900 E. Plano Parkway in June 2021. The company leased nearly 32,000 square feet.

Osburn Contractors, a Garland-based construction firm, has relocated its headquarters, leasing 25,000 square feet of space at 5800 Democracy Drive in Legacy Business Park.

Cheil Worldwide, a South Korea-based marketing and advertisement firm, has relocated its company to 6600 Chase Oak Boulevard leasing 19,000-square-foot in Legacy Central.

Ebby Halliday, a Dallas-based real estate firm, has relocated its headquarters to 5560 Tennyson Parkway during its 75th anniversary year. The firm's 17,000-square-foot lease houses 60 employees.

The Point Group, a Dallas-based marketing firm, relocated to 5601 Granite Parkway in June 2021. The lease represents 15,000 square feet of office space.

CarMax Technology Innovation Center, a Virginia-based used car retailer firm, expanded into Plano with a Tech Center at 5830 Granite Parkway in September 2021. Its 12,000-square-foot sublease will accommodate 200 employees.

Databank, a Dallas-based data center, is expanding its DFW3 data center in Plano's Legacy Business Park. The facility will increase by 12,000 square feet for a total of 156,000 square feet.

NTFN, a full-service mortgage banker, relocated its headquarters to a 10,100-square-foot office at 6201 W. Plano Parkway and accommodates 75 employees.

Asset Intertech, a Richardson-based manufacturing firm, relocated its headquarters to a 7,000-square-foot space at 7161 Bishop Road.

Toyota Insurance Management Solutions, an automotive insurance firm, relocated its division headquarters to 7700 Windrose Avenue occupying 6,200 square feet. The new office will house 55 employees.

Katapult, a New York-based technology firm, has relocated its headquarters to 5204 Tennyson Parkway in February 2021. Its lease includes 5,000 square feet of office space.

Capital One Finance, a division of the Virginia-based financial services firm, is expanding its employment within its 300,000-square-foot office complex at 7933 Preston Road. The firm will add an additional 300 employees to its existing 5,000 employment count.

Boeing Global Services, a division of the Chicago-based airplane manufacturing firm, is expanding its employment size in its Legacy West office at 5905 Legacy Drive. The firm is adding 150 employees to its current employee count of 200.

Long-Term Financial Planning

Long-term planning and responding prudently to changing economic conditions remain key in maintaining the City's fiscal health. Since March 2020, the City, State and Country have faced a global pandemic, an economic downturn and social unrest. These unforeseen and uncontrollable factors have had historic impact on the community and the City, as well as, the nation as a whole. Additionally, while long-term economic forecasts for Plano and the North Texas region remain highly favorable; Plano faces a shrinking supply of undeveloped land. These factors are taken into account when planning for the City's financial future.

Many City revenue sources have been impacted by recent events, including sales tax, permit and license revenues, hotel occupancy taxes and fines and fees; however, property tax revenue will not be impacted until fiscal year 2022. The City implemented a budget contingency plan in March 2020 taking quick and decisive action to freeze positions, delay projects, cut expenses and reprogram resources in recognition of the changed environment. The City also took a proactive approach with budget reductions for fiscal year 2021, recognizing projected COVID-19 impacts through the end of the next fiscal year.

Across all of Plano's operating funds in fiscal year 2022, appropriations equal \$638.9 million, a \$33.8 million or 5.6% increase from the fiscal year 2021 final budget. Projected at \$314.5 million in fiscal year 2022, General Fund revenues are expected to increase when compared to the fiscal year 2021 final budget, while fiscal year 2022 General Fund appropriations are set at \$353.7 million, an increase of \$26.0 million from the fiscal year 2021 final budget.

Resources have been diligently set aside on a pay-go basis for renovating, repairing and replacing existing infrastructure via the Capital Maintenance Fund, which has been a highlighted factor in maintaining the City's AAA bond ratings. Capital Maintenance funding for fiscal year 2022 will be primarily supported by transfers of \$43.2 million from the General Fund, including \$8 million from the American Rescue Plan Act (ARPA) funding; \$2.0 million from the Water and Sewer Fund; \$500 thousand from the Convention and Tourism Fund and \$500 thousand from the Municipal Drainage Fund.

The City of Plano will use bond authority approved by voters in May 2019 and May 2021 for the fiscal year 2022 Community Investment Program. Of the \$162.8 million budgeted for General Obligation capital expenditures in fiscal year 2022, \$113.8 million is for street improvements, \$42.9 million is dedicated for park improvements and recreation center projects, \$5.1 million for public safety facilities, branch library expansions and improvements at other City facilities and \$1 million for improvements to public infrastructure to support economic redevelopment.

Budgetary impacts are minimized by setting aside resources to purchase equipment and replace existing equipment which has reached the end of its useful life with the Equipment Replacement Fund (a component of the Equipment Maintenance internal service fund). The fund collects regularly scheduled depreciation charges from City departments possessing vehicles and capital equipment and uses those funds for future purchases of new equipment on an as needed basis. In fiscal year 2022, the Equipment Replacement Fund's projected revenues total \$18.2 million, with depreciation charges of \$12.7 million as the primary source of revenue. The fund is also expected to collect \$603 thousand from the auction of City equipment and \$750 thousand from interest earned on the fund's available balance.

The City has programed a General Obligation bond sale of \$78.3 million to support capital projects in fiscal year 2022. The General Obligation sale will fund numerous street improvements, the continued development and renovation of Plano's park system, and renovations and additions to recreation and library facilities.

Due to an increase in wastewater related fees passed down from the North Texas Municipal Water District (NTMWD), Plano's water supplier, the City has budgeted for an 8.0% increase in wastewater fees effective November 1, 2021. The City continues in its effort to minimize the impact of the pass through rate increases from NTMWD on to customers, including the hiring of a water and sewer rate consultant in order to plan both short-term and long-term water and wastewater rates to ensure sustainability of the water and sewer utility

fund. The City attempted to absorb the additional charges from NTMWD initially, but has since had to raise rates to both residents and non-residents. The City deemed it necessary to raise wastewater rates for both residential and non-residential customers by the minimum rate, as well as, the variable rates depending on volumetric usage while maintaining the same water rates from the previous fiscal year.

Relevant Financial Policies

<u>Financial Policies</u>. The City Council Finance Subcommittee developed written policies detailing financial goals and guidelines for the City. These included policies for accounting, budgeting, capital improvements, asset management, revenue management, risk management, investing, cash management and fund balance and reserve levels. City Council adopted these policies, and on a periodic basis, the financial policies are reviewed and updated.

<u>Accounting Procedures and Budgetary Controls.</u> The City's accounting records for governmental funds are maintained on a modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's proprietary funds are maintained on the accrual basis.

In developing and maintaining the City's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets; and (3) compliance with all applicable rules, regulations and contractual requirements. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the fund level, and encumbrances are entered at the time a purchase order is issued. Open encumbrances are recorded as assignments of fund balance as of September 30 of each year, and the subsequent year's budget is increased to reflect these encumbrances. Unspent and unencumbered appropriations lapse at the end of the fiscal year.

The budgetary process begins each year with the preparation of both current and proposed year revenue estimates by the City's financial management staff and expenditure estimates by each City department. Budgets are reviewed by the Budget Committee which consists of the City Manager, Deputy City Managers, Director of Budget and Research, Director of Finance and Director of Human Resources. The City Manager makes final decisions and submits a recommended budget to City Council. The proposed budget is reviewed extensively by City Council, a process that includes a Charter-mandated public hearing, in addition to work sessions which are open to the public. The City Charter requires adoption of the City budget by no later than September 15 of each fiscal year.

While the budget is developed and controlled at the departmental level, appropriations are made at fund level. An ordinance establishes the budget for operating expenditures, debt service payments and interfund transfers, while a separate ordinance establishes the property tax rate.

As part of each year's budget development process, departments are required to update expenditure estimates for the current fiscal year. The re-estimated budgets are reviewed by the Budget Committee and City Council concurrent with review of the proposed budget. The re-estimated current year budget is used as a working budget for the last half of the current fiscal year. This re-estimated budget, or final budget, may require a supplemental appropriation and, if so, such supplemental appropriation is approved by ordinance adopted by City Council prior to the end of the current fiscal year.

During the course of the fiscal year, expenditure controls are maintained by each department head with overall review exercised by the Budget Committee. Monthly departmental expenditure reports are generated by an automated management accounting system and provide expenditure totals and encumbrances at the line-item level for the most recently completed month, as well as, a year-to-date total, and an actual versus planned rate of expenditure. Major expenditure requests are reviewed by the Budget and Research Department prior to the encumbrance of funds.

Constant review of revenue and expenditure trends is maintained with specific responsibility assigned to the Director of Budget and Research. Recommendations for corrective action are made to the City Manager and City Council, if appropriate, as needed to ensure the integrity of the adopted budget.

The City's Finance Department publishes a Comprehensive Monthly Financial Report (CMFR) directed at providing internal and external users with a general awareness of the City's financial positions and economic activity. The CMFR includes a Financial Summary section reporting the performances of the major operating funds, an Economic Analysis section summarizing key economic indicators and an in-depth review with graphic illustrations and an Investment Report section describing investment activity, interest earnings and the City's portfolio. The CMFR is presented quarterly to City Council.

Major Initiatives

The fiscal year 2022 Community Investment Program (CIP) will continue to reflect the City's commitment to enhancing and maintaining its infrastructure. Major facility projects from the fiscal year 2021 CIP included construction expenditures of a new fire training facility in northwest Plano. Total municipal facilities expenditures were \$12.9 million. Plano's parks and recreation system saw \$21.0 million in expenditures to improve parks, connect trails and obtain land for future park development. Expenditures include addition of an outdoor pool at Oak Point Recreation Center and replacement of the existing maintenance facility in Jack Carter Park and a new facility at High Point Park. Numerous major street projects were undertaken in fiscal year 2021, with a total of \$ 30.2 million spent to improve intersections, collector and residential streets, screening walls, sidewalks and alleys. Design and construction of water and sewer infrastructure renovations and replacements totaled \$16.8 million in fiscal year 2021, with major expenditures occurring in the citywide water meter replacement project and inflow and infiltration repairs across the City's sanitary sewer system totaling \$1.2 million. Finally, \$32.1 million was invested through the Capital Maintenance Fund on repairs, renovations and rehabilitation projects for City streets, facilities and park assets with the goal of extending the useful life of those assets.

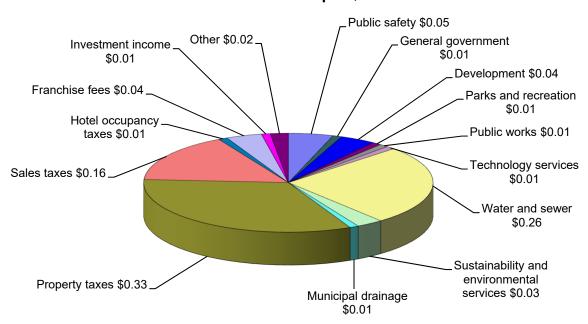

Plano also budgeted \$9.4 million for economic development incentives for fiscal year 2022 to remain competitive with surrounding neighboring cities. Fiscal year 2021 was the 15th year with two-cents from the property tax rate devoted for these incentives. The Economic Development Incentive Fund is used to attract and retain major business and employees to the City.

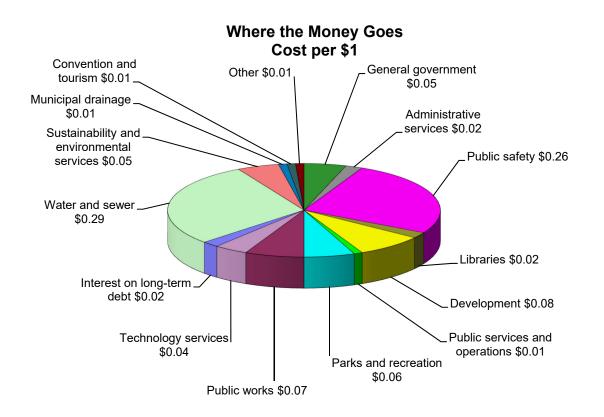

Tax Abatements

The City enters into economic development agreements designed to promote development and redevelopment within the City, spur economic improvement, stimulate commercial activity, generate additional sales tax and enhance the property tax base and economic vitality of the City. These programs abate or rebate property tax revenues. The City's economic development agreements are authorized under Chapter 380 of the Texas Local Government Code and Chapter 311 (Tax Increment Financing Act) and Chapter 312 (Property Redevelopment and Tax Abatement) of the Texas Tax Code. The economic development agreements are designed to support the creation of new businesses, the expansion and retention of existing businesses within the City and the attraction of companies that offer high impact jobs and share the community's values.

The following charts depict the sources and uses of the City's financial breakout as of fiscal year-end 2021:

Where the Money Comes From Revenues per \$1

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its ACFR for the fiscal year ended September 30, 2020. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized ACFR whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The City has received a Certificate of Achievement for the last 40 consecutive years (fiscal years ended 1981-2020). We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Many persons are responsible for the preparation of this report and maintenance of records upon which it is based. Appreciation is expressed to the City employees throughout the organization, especially those employees of the Accounting Department, who were instrumental in the successful completion of this report. Certain individuals worked many extra hours and exhibited extraordinary effort in ensuring the accuracy and timeliness of this report, and their contribution to this effort is greatly appreciated.

Our appreciation is also extended to the Mayor and members of City Council for providing the resources necessary to maintain the integrity of the City's financial affairs.

Respectfully submitted,

FINANCIAL SECTION

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2021

ANNUAL COMPREHENSIVE FINANCIAL REPORT 2021

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council The City of Plano, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Plano, Texas (the City), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of September 30, 2021 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The Honorable Mayor and Members of the City Council The City of Plano, Texas

Other Matters

<u>Required Supplementary Information</u>

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and the individual fund budgetary comparison schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the individual fund budgetary comparison schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining and individual nonmajor fund financial statements and the individual fund budgetary comparison schedule are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The Honorable Mayor and Members of the City Council The City of Plano, Texas

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 6, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

WEAVER AND TIDWELL, L.L.P.

Weaver and Siduell L. L.P.

Dallas, Texas January 6, 2022

MANAGEMENT'S DISCUSSION & ANALYSIS SECTION

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2021

ANNUAL COMPREHENSIVE FINANCIAL REPORT 2021

CITY OF PLANO, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

SEPTEMBER 30, 2021

(unaudited)

Our discussion and analysis of the City's financial performance provides an overview and analysis of the City's financial activities for the fiscal year ended September 30, 2021. Please read it in conjunction with the accompanying transmittal letter and the accompanying basic financial statements.

As noted in the prior year report, in March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. This contagious disease outbreak brought adverse public health developments, affected public education, workforces, economies and financial markets globally. During the last year-and-a-half, the City faced a global pandemic, economic downturn, a historic winter storm and social unrest. These unforeseen and uncontrollable factors had significant impact on the City. While the current economy is experiencing recovery and continues to normalize, the City has positioned itself to meet citizen and business needs.

Although Plano's economy has been negatively impacted by the pandemic, the City continues to benefit from many favorable conditions including a stable, diverse economic base and a desirable location for work and living.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$1.7 billion (net position). Of this amount, \$1.3 billion (79.4 percent) is net investment in capital assets. The amount of net position restricted for a specific purpose is \$56.7 million (3.4 percent). The remaining \$285.5 million (17.2 percent) is unrestricted and may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's total net position increased by \$57.9 million primarily attributed to the factors below.

In fiscal year 2021, the City recognized \$10.2 million in Coronavirus Aid, Relief and Economic Security (CARES) Act funding from Collin County to assist in direct COVID-19 response efforts as allowed by the U.S. Department of the Treasury's Coronavirus Relief Fund Guidance for State, Territorial, Local and Tribal Governments. The City used the direct expense funds primarily to cover payroll costs associated with public safety employees, as work performed was substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

As a result of the American Rescue Plan Act (ARPA), subtitle M – Coronavirus State and Local Fiscal Recovery Funds (SLFRF), the City was allocated \$36 million. The City received 50% of the allocation on June 1, 2021, \$18.2 million, with the balance anticipated to be delivered approximately twelve months later. The City is claiming the full amount of the funds for the initial tranche under the Revenue Replacement for the Provision of Government Services category to be used toward the following approved projects: a computerized signal system, City facility modifications, sidewalk repairs, signage enhancements and improvements, recreation revolving programs and overtime costs for fire personnel. The City utilized \$1.9 million of the SLFRF funding in the current year.

The City spent \$7.6 million from the U.S. Department of the Treasury through the Emergency Rental Assistance Program. The program makes funding available to assist households that are unable to pay rent or utilities through existing or newly created rental assistance programs.

Property tax revenues are reported at \$212.7 million, higher over prior year by \$6.3 million as a result of additional properties added in the current year and increases in total assessed property

values. In fiscal year 2022, the total appraised value includes an increase in new property coming on-line of \$613.1 million while existing property values are expected to increase by \$514.3 million. Sales tax revenues increased over prior year by \$6.2 million due to the economic recovery. Hotel occupancy tax revenues are higher over prior year by \$220 thousand, as the industry recovers from the pandemic. Investment income decreased over prior year by \$16.8 million primarily as a result of fair market value adjustments to investments as required by Governmental Accounting Standards Board (GASB) Statement No. 31.

- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$394.2 million, an increase of \$19.0 million in comparison with the prior year. Within this total, \$156.2 million (39.6 percent) is restricted by specific legal requirements and \$180.5 million (45.8 percent) has been committed and assigned to specific types of expenditures. Unassigned fund balance is \$56.7 million (14.4 percent) and can be used for any lawful purpose. The remaining \$696 thousand (0.2 percent) is nonspendable.
- The City's total bonded debt increased by \$79.9 million primarily due to issuance in the current year of General Obligation, Water and Sewer and Municipal Drainage bonds.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements; (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business. The Statement of Net Position presents information on all of the City's assets, deferred outflows, liabilities and deferred inflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The Statement of Net Position combines and consolidates current financial resources (short-term spendable resources) with capital assets and long-term obligations of governmental and business-type funds. In order to assess the overall health or financial condition of the City, other non-financial factors should also be taken into consideration. These include changes in the City's property tax base and the condition of the City's infrastructure (roads, drainage improvements, storm and sewer lines, etc.).

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (uncollected taxes and earned but not used vacation leave).

In the Statement of Net Position and the Statement of Activities, the City is divided into three types of activities:

Governmental activities – Most of the City's basic services are reported here, including police, fire, libraries, development, public services and operations, parks and recreation, public works, technology services and general administration. Property taxes, sales taxes and franchise fees finance most of these activities. Additionally, the City has three blended component units that are detailed in the accompanying footnotes.

- Business-type activities The City charges a fee to customers in order to cover all or most of the
 cost of certain services the City provides. The City's water and sewer operations, sustainability
 and environmental services, municipal drainage system, convention and tourism, municipal golf
 course, downtown center development and recreation revolving programs are reported as
 business-type activities.
- Component units The City includes separate legal Tax Increment Financing (TIF) and Tax Increment Reinvestment Zone (TIRZ) entities in its report; TIF No. 2 East Side, TIF No. 3 Silver Line (formerly Cotton Belt) Regional Rail Project and TIRZ No. 4 Collin Creek Mall Redevelopment. Although legally separate, the City is financially accountable for the TIF No. 2 and No. 3 and TIRZ No. 4.

The government-wide financial statements can be found on pages 21-23 of this report.

Fund Financial Statements

A fund is a self-balancing set of accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions
reported as governmental activities in the government-wide financial statements. However, unlike
the government-wide financial statements, governmental fund financial statements focus on nearterm inflows and outflows of spendable resources, as well as, on balances of spendable resources
available at the end of the fiscal year. Such information may be useful in evaluating a government's
near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains twenty-one individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Debt Service Fund, Capital Maintenance Fund, Street Improvements Fund, Municipal Facilities Fund, Park Improvements Fund, Economic Development Incentive Fund and Grant Fund, all of which are considered to be major funds. Data from the other thirteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the Combining Financial Statements Section elsewhere in this report.

The basic governmental fund financial statements can be found on pages 24-30.

• **Proprietary funds**. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer operations, sustainability and environmental services, municipal drainage system, convention and tourism, municipal golf course, downtown center development and recreation revolving programs. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal service funds to account for its equipment maintenance services, municipal warehouse, technology services, risk management and health claims programs. Because these services predominately benefit government rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The City maintains seven individual enterprise funds. The proprietary fund financial statements provide separate information for the water and sewer operations, sustainability and environmental services and municipal drainage system, as they are considered major funds. Data from the remaining four enterprise funds, known as the other enterprise funds, as well as the internal service funds, are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data is provided in the Combining Financial Statements Section elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 32-39 of this report.

• **Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 40-41 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a
full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 43-84 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this
report presents certain required supplementary information concerning the General Fund's budget
to actual performance and the City's progress in funding its obligation to provide pension and other
postemployment benefits to its employees and retirees.

The required supplementary information can be found on pages 85-92 of this report.

The combining statements referred to earlier in connection with nonmajor governmental, nonmajor enterprise, internal service, fiduciary and component unit funds can be found on pages 93-133 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's combined net position was \$1.7 billion as of September 30, 2021. This analysis focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

By far the largest portion of the City's net position (79.4 percent) reflects its net investment in capital assets (land, buildings and equipment). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

Table 1 Net Position (in Thousands)

	Governmental Activities		Business-type Activities		Total Primary Government		
	2021	2020	2021	2020	2021	2020	
Current and other assets	\$ 544,303	\$ 503,297	\$ 174,641	\$ 135,796	\$ 718,944	\$ 639,093	
Capital assets	1,335,538	1,285,788	443,126	438,446	1,778,664	1,724,234	
Total assets	1,879,841	1,789,085	617,767	574,242	2,497,608	2,363,327	
Deferred outflows	42,303	44,789	5,650	5,863	47,953	50,652	
Noncurrent liabilities	621,019	611,537	116,711	69,622	737,730	681,159	
Other liabilities	56,113	47,359	18,378	19,175	74,491	66,534	
Total liabilities	677,132	658,896	135,089	88,797	812,221	747,693	
Deferred inflows	67,177	58,839	8,345	7,495	75,522	66,334	
Net position:							
Net investment in							
capital assets	930,348	911,222	385,245	389,326	1,315,593	1,300,548	
Restricted	50,665	76,624	6,050	5,226	56,715	81,850	
Unrestricted	196,822	128,293	88,688	89,261	285,510	217,554	
Total net position	\$ 1,177,835	\$ 1,116,139	\$ 479,983	\$ 483,813	\$ 1,657,818	\$ 1,599,952	

An additional portion of the City's net position (3.4 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (17.2 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as, for its separate governmental and business-type activities. The same situation held true to the prior fiscal year.

Table 2 Change in Net Position (in Thousands)

Increase (decrease) in net position	61,696	50,697	(3,830)	(293)	57,866	50,404	
Net position – October 1	1,116,139	1,065,442	483,813	484,106	1,599,952	1,549,548	
Net position – September 30	\$ 1,177,835	<u>\$ 1,116,139</u>	\$ 479,983	\$ 483,813	\$ 1,657,818	\$ 1,599,952	

The City's total net position increased by \$57.9 million. In fiscal year 2021, the City recognized \$10.2 million in CARES funding from Collin County to assist in direct COVID-19 response efforts as allowed by the U.S. Department of the Treasury's Coronavirus Relief Fund Guidance for State, Territorial, Local and Tribal Governments. The City used the direct expense funds to primarily cover payroll costs associated with public safety employees, as work performed was substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

As a result of ARPA, subtitle M – Coronavirus SLFRF, the City was allocated \$36 million. The City received 50% of the allocation, \$18.2 million, on June 1, 2021, with the balance anticipated to be delivered approximately twelve months later. The City is claiming the full amount of the funds for the initial tranche under the Revenue Replacement for the Provision of Government Services category and applied \$1.9 million of the funds towards recreation revolving programs and overtime costs for fire personnel.

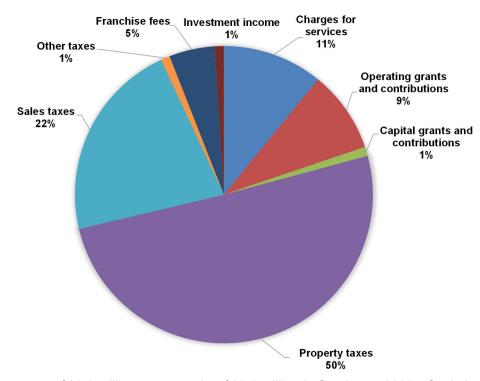

The City spent \$7.7 million from the U.S. Department of the Treasury through the Emergency Rental Assistance Program. The program makes funding available to assist households that are unable to pay rent or utilities through existing or newly created rental assistance programs.

Property tax revenues are reported at \$212.7 million, higher over prior year by \$6.3 million as a result of additional properties added in the current year and increases in total assessed property values. In fiscal year 2022, the total appraised value includes an increase in new property coming on-line of \$613.1 million while existing property values are expected to increase by \$514.3 million. Sales tax revenues increased over prior year by \$6.2 million due to the economic recovery and is reported at \$93.5 million. Hotel occupancy tax revenues are higher over prior year by \$220 thousand, as the industry attempts to recover from the pandemic. Investment income decreased over prior year by \$16.8 million primarily as a result of fair market value adjustments to investments as required by GASB Statement No. 31.

Governmental Activities

Governmental activities increased the City's net position by \$61.7 million. Key elements of this increase are shown in Table 2.

Revenues by Source - Governmental Activities

Program revenues were \$88.6 million, compared to \$89.1 million in fiscal year 2020. Capital grants and contributions decreased \$4.6 million primarily due to a decrease in developers' contributions of \$3.3 million. The net decrease was offset by an increase in program revenue attributed to receipt of the NTMWD water case settlement of \$2.1 million, approved to be used to establish a Rainy Day Fund. The Rainy Day fund was established in the current fiscal year to provide a safety reserve for the City, assist in stabilizing the tax rate and assist in preserving the City's AAA bond rating. This fund is accounted for in the General Fund.

General revenues decreased from \$334.4 million in fiscal year 2020 to \$331.1 million in fiscal year 2021. Property tax revenues increased by \$6.3 million due to additional properties added in the current year and increases in total assessed property value. Sales tax revenues increased by \$6.2 million as the economy

is recovering from the impact of the COVID-19 pandemic. These increases are offset by a decrease in investment income of \$14.2 million as a result of market value adjustments to investments as required by GASB Statement No. 31. These adjustments represent unrealized gains or losses and are based on current market conditions.

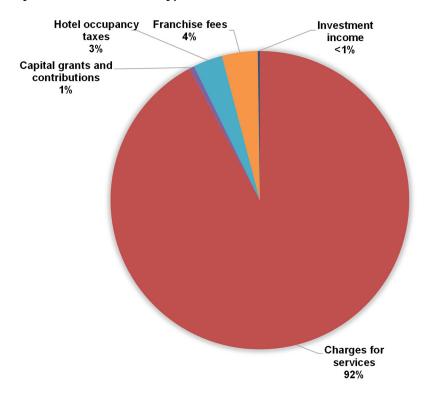

Overall, governmental activities expenses were \$369.6 million, a decrease of \$15.4 million over the prior year, primarily the result of a decrease in pension and other postemployment benefits (OPEB) expense in the current year of \$21.1 million. The pension and OPEB expense recognized is the change in the net pension liability from the beginning of the year to the end of the year, adjusted for deferred recognition of certain changes in the liability and investment experience.

Business-Type Activities

Revenues of the City's business-type activities were \$218.8 million for the fiscal year ended September 30, 2021. Revenues decreased approximately \$7.2 million, or 3.2%, as compared to the prior fiscal year. Expenses for the City's business-type activities decreased \$3.3 million, or 1.5%. These changes are the result of several factors, including the following:

- The City's water and sewer system recorded charges for services of \$166.3 million, a decrease of \$3.1 million, or 1.8%, from the prior year primarily attributable to a mild climate and more rainfall in the current year. Water rates remain constant to prior year. While water revenues decreased, sewer revenues increased due to a rate increase effective November 1, 2020. Sewer revenues are calculated on averages of the winter quarter period (November-February) from prior actual usage. Contractual payments to North Texas Municipal Water District (NTMWD) increased \$870 thousand in the current year due to a rate increase effective October 1, 2020.
- The City's sustainability and environmental services activities operated with program and franchise fee revenues exceeding expenses by \$1.4 million in fiscal year 2021. The Construction and Demolition Recycling Deposit Program includes programs such as increased diversion of related waste from landfill, expanded recyclable materials and development of sustainability-based programs. The Program directs unreimbursed funds from private development projects into an account to fund identified future approved programs. Current year revenues are higher by \$1.0 million as funds held in escrow for construction and demolition projects qualified for revenue recognition.
- The City's municipal drainage activity operated with charges for services exceeding expenses by \$3.0 million, compared to \$2.0 million in the prior year. The municipal drainage revenues are higher due to a rate increase effective July 2020.
- The City's convention and tourism activity operated with charges for services and hotel occupancy tax revenues exceeding expenses by \$480 thousand as compared to net expenses of \$460 thousand in the prior fiscal year. Hotel occupancy tax revenues are slightly higher in the current fiscal year as the travel industry begins to recover from the COVID-19 pandemic.
- The City's recreation revolving activity reported charges for services exceeding expenses by \$785 thousand. As restrictions related to COVID-19 were lifted, revenues from recreation fees and ticket sales for City sponsored events increased. The recreation revolving fund was significantly impacted by the pandemic, as recreation centers were closed, special events cancelled and classes and programming placed on hold. Due to the financial impact of the pandemic, the fund utilized \$1.1 million in SLFRF funding to allow for programs, classes and special events that benefit the community from a mental and physical wellness standpoint.

Revenues by Source - Business-Type Activities

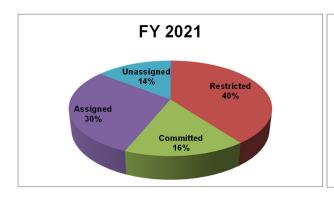

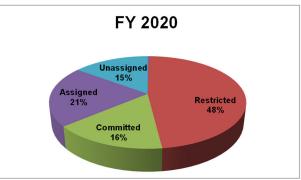

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balances (unassigned, assigned and committed) may serve as a useful measure of a government's net resources available for spending in the next fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$394.2 million. Within this total, \$156.2 million is restricted by specific legal requirements, such as debt covenants, and \$180.5 million has been committed and assigned to specific types of expenditures. Unassigned fund balance is \$56.7 million and can be used for any lawful purpose. The remaining \$696 thousand is nonspendable.

The General Fund is the chief operating fund of the City. The fund balance of the City's General Fund increased by \$3.9 million during the current fiscal year. Key factors in this increase are as follows:

- General fund revenues increased \$11.9 million compared to prior year. Property tax revenues increased \$4.9 million as a result of additional properties added in the current year and increases in total assessed property values. Sales tax revenues increased over prior year by \$5.8 million due to economic recovery. Licenses and permits revenues also increased by \$3.2 million as the result of higher valued permits issued for businesses relocating to, or within, Plano.
- Expenditures increased \$5.6 million primarily due to a decline in payroll cost reimbursements from CARES funding for public safety employees' salaries. Additionally, the Public Infrastructure fund purchased right-of-way of \$10 million for development of assets related to the Collin Creek Mall Redevelopment Project discussed further in the accompanying footnotes.

The Debt Service Fund has a total fund balance of \$7.4 million, all of which is restricted for the payment of debt service. The fund balance decreased by \$764 thousand primarily due to bond principal and interest payments exceeding property tax revenues in the current year.

The Capital Maintenance Fund balance of \$42.9 million is assigned for replacement and renewals of the City's facilities and infrastructure. The Capital Maintenance Fund balance increased \$11.0 million from the prior year as a result of transfers in the fund exceeding capital outlay expenditures by \$10.3 million. During the current fiscal year, an additional \$2 million was transferred in based on the City Council approved Sales Tax Policy which can be used to allocate any revenue received from sales tax over the re-estimated budget revenue projection to the Capital Maintenance Fund.

The Street Improvements Fund has a total fund balance of \$89.0 million, with \$51.8 million in restricted and \$37.2 million in assigned. The Street Improvements Fund balance increased \$13.3 million primarily due to revenues and other financing sources related to debt issuance of \$43.9 million exceeding capital outlay of \$30.2 million for streets projects.

The Municipal Facilities Fund has a total fund balance of \$29.4 million, with \$20.9 million in restricted and \$8.4 million in assigned. The Municipal Facilities Fund balance increased \$568 thousand due to other financing sources related to debt issuance exceeding capital outlay expenditures.

The Park Improvements Fund has a total fund balance of \$42.7million, with \$29.2 million in restricted and \$13.5 million in assigned. The Park Improvements Fund balance decreased over prior year by \$6.8 million due to net expenditures of \$19.9 million exceeding \$13.1 million in other financing sources related to debt issuance in the current year.

The Economic Development Incentive Fund balance of \$64.4 million increased over prior year by \$5.1 million as a result of contributions exceeding expenses in the current year. Expenditures are based upon incentive obligations which stimulate economic development for the City through usage of Chapter 380 agreements as authorized by the Texas Local Government Code. The portion of the fund balance obligated but unpaid for potential incentives on signed economic development agreements totals \$9.4 million.

The Grant Fund has a negative fund balance of \$1.1 million due to reimbursements not being received within 30 days and, therefore, not considered available to pay liabilities of the current period. The CARES and SLFRF funding are reported and reflected in the revenues and expenditures in this fund.

Proprietary Funds – The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

- The City's Water and Sewer Fund net position of \$421.9 million decreased by \$7.4 million over the prior year. In the current fiscal year, total operating revenues are \$166.2 million while operating expenses are \$165.3 million. Revenue is lower in the current year by \$3.1 million due to a mild climate and more rainfall in the current year. Water rates remained the same as prior year. Although water income decreased, sewer revenues increased as a result of a rate increase effective November 1, 2020. Sewer revenues are calculated on averages of the winter quarter period (November-February) from prior actual usage. Contractual payments to North Texas Municipal Water District (NTMWD) increased \$870 thousand in the current year due to a rate increase effective October 1, 2020. Contractual payments to NTMWD are \$113.6 million of the total operating expense.
- The City's Sustainability and Environmental Services Fund reported negative net position of \$985 thousand in the current year compared to negative net position of \$2.3 million in the prior year. Total operating revenues are \$30.1 million which exceed operating expenses of \$29.0 million. The change in net position was an increase of \$1.3 million, attributed to the monthly residential rate increase for 95-gallon carts effective November 1, 2020. With the recent growth in residential and commercial customers, the need for additional services is warranted which stems from increased personnel and contractual related expenses.
- The City's Municipal Drainage Fund net position increased over the prior year by \$1.8 million. Drainage rates increased in July 2020 and January 2021 with current year revenues reported at \$9.4 million and operating expenses and transfers out of \$6.2 million.

General Fund Budgetary Highlights

During the current year, the actual expenditures on a budgetary basis were \$280.4 million compared to the final budget amount of \$272.9 million. Actual expenditures on a budgetary basis were \$11.6 million lower than the original budget and \$7.5 million higher as compared to the final budget. Decreases to the original budget were due to continued prudent spending by the various departments and utilization of CARES and SLFRF funds in response to the COVID-19 pandemic.

For fiscal year 2021, the actual revenues on a budgetary basis were \$312.3 million as compared to the final and original budget amounts, each at \$303.9 million.

The City has an actual budgetary basis General Fund balance of \$62.0 million as of September 30, 2021, compared to the final and original budget fund balances of \$63.6 million and \$46.7 million, respectively. The variance in fund balance is primarily due to the continued prudent spending by the departments and recovery of public safety payroll costs with CARES and SLFRF funds.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the fiscal year 2021, the City had \$1.8 billion invested in a broad range of capital assets, including police and fire equipment, buildings, park facilities, roads, bridges and water and sewer lines (Table 3). This amount represents a net increase (including additions and deductions) of \$54.4 million over the prior fiscal year.

Capital Improvement Program for Fiscal Year 2022

Westgate paving improvements

Oak Point Recreation Center pools

Water meter replacement

The City's fiscal year 2022 General Obligation capital budget includes \$163.0 million for capital projects, principally for four major categories: street improvements and enhancements, parks and recreation, municipal facilities and public infrastructure improvements. An additional \$78.3 million in General Obligation bond proceeds will be required to support the fiscal year 2022 General Obligation capital investment program.

Street Improvements and Enhancements. The City plans to spend \$113.8 million on street improvements and enhancements including \$25.0 million for arterial concrete street repairs, \$20.0 million for residential street and alley repairs, \$3.9 million for Parker Road reconstruction from Roundrock to Custer, \$3.7 million for Shiloh Road expansion from Park Boulevard to 14th Street, \$2.5 million for screening walls on Independence Parkway to Lanarc and \$2.2 million for traffic signalization. The remaining funds for street improvements are for a variety of projects under \$2 million.

Parks and Recreation. Estimated expenditures for parks and recreation facilities are \$42.9 million including \$6.5 million for land acquisition, \$8.0 million for community park renovations, \$3.0 million for Jack Carter Park improvements, \$3.0 million for Oak Point Recreation Center pools, \$2.6 million for recreational trails and \$2.3 million for neighborhood park improvements. The remaining funds for park improvements are for a variety of projects.

Municipal Facilities. Estimated expenditures for municipal facilities are \$5.1 million including \$2.1 million for fueling stations and \$1.0 million for the Fire Station No. 5 remodel. The remaining funds for municipal facilities are for a variety of projects.

Public Infrastructure Improvement. Estimated expenditures of \$945 thousand are to improve publicly owned infrastructure that serves commercial areas, such as streets, utilities and open spaces, in coordination with private development and reinvestment in commercial properties. Funds are intended to improve older areas of Plano by enhancing existing infrastructure so further economic development becomes attractive to private firms and investors.

Debt

At year-end, the City had \$617.9 million in bonds and tax anticipation notes outstanding as compared to \$538.0 million at the end of the prior fiscal year, an increase of 14.9%.

Table 4
Outstanding Debt at Year-end
(in Thousands)

		Governmental Activities		ss-type ities	Totals	
	2021	2020	2021	2020	2021	2020

Revenue bonds (backed by fee revenues)			104,791	54,970	104,791	54,970
Totals	\$ 513,078	\$ 482,994	\$ 104,791	\$ 54,970	\$ 617,869	\$ 537,964

During the current fiscal year, the City issued \$74.1 million in General Obligation Refunding and Improvement bonds, \$10.6 million in Water and Sewer Revenue bonds and \$40.6 million in Municipal Drainage Revenue bonds.

The City's General Obligation bonds and tax notes continue to carry AAA-rated bonds issued by Moody's Investor Service, Standard & Poor's and Fitch, Inc., the highest rating possible. This rating has been assigned to the City's tax-supported debt since February 2000. The City's Water and Sewer Revenue bonds carry AAA ratings as assigned by Standard & Poor's and AA+ ratings as assigned by Fitch. Municipal Drainage Revenue bonds are rated as Aa1 by Moody's and AAA as assigned by Standard & Poor's.

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on General Obligation long-term debt.

The City maintains a self-insurance program for general liability, public officials' errors and omission, police professional liability, property loss and workers' compensation. The City has claims and judgments of \$8.3 million outstanding at year-end compared with \$8.0 million at the end of the prior fiscal year. Claims and judgements of \$5.4 million relate to property and liability losses while \$2.9 million relate to health claims.

Other obligations include accrued vacation pay and sick leave. More detailed information about the City's long-term liabilities and self-insurance is presented in Notes 7 and 12 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

While recognizing the challenges we have faced and will continue to face over the next few years, the City's elected and appointed officials continue to focus on the organizational and community values that have made Plano the best City in North Texas to live, work and play. Since March 2020 our City, State and Country have faced a global pandemic, an economic downturn, a historic winter storm and social unrest. These unforeseen and uncontrollable factors have had historic impact on our community and the City, as well as, our state and nation. The City is committed to providing exceptional services at the greatest possible value. This is reinforced by consistently offering one of the lowest tax rates in the region, which includes lowering the tax rate from 44.82 cents to 44.65 cents per \$100 of assessed property valuation. The fiscal year 2022 tax rate of 44.65 cents meets the City's No-New-Revenue Tax Rate (previously known as the Effective Tax Rate). The fiscal year 2022 Combined Budget was developed with a focus on Plano's five main values/priorities: personnel, quality infrastructure, service demand, financial policies and affordability/property tax.

The 2022 budget was developed with a focus on values and priorities that have made Plano successful, with a commitment to continue adapting when necessary and keeping Plano as the best value in North Texas. The 2022 budget projects a continued economic recovery from the impacts of the global pandemic and positions the City to meet citizen and business needs, while understanding the City must retain adaptability to respond to unforeseen challenges as our community and economy continue to normalize.

The annual budget is a critical City Council policy document that defines the service priorities and projects financial resources for the City of Plano. Given the cautious recovery outlook, the 2022 budget contains no new programs or services. The budget provides for continued maintenance and improvements to the city's \$2.7 billion infrastructure. With an aging infrastructure, it is critical for the City to reinvest in maintaining its assets. Fortunately, increased property values and resulting revenues, as well as, increased sales tax receipts, will allow us to increase funding for infrastructure maintenance and repair. The City is positioned to maintain our infrastructure, take care of our personnel, maintain our financial policies and bond ratings and also serve our citizens through existing service offerings and Public Safety programs.

The largest single revenue source in the fiscal year 2022 General Fund budget is property taxes, which account for 48.6% of total revenues. Assessed property values in Plano increased 2.4% from the prior year, including \$613.1 million in new property entering the tax roll for the first time. In addition, the Over-65 exemption equals \$6.0 million in property tax revenue this year. According to the certified figures received from both Collin and Denton Central Appraisal Districts, the total assessed property value for 2022 of \$47.7 billion is an increase of \$1.1 billion or 2.4%. Existing property values are expected to increase by \$514.3 million, or 1.1%. Sales tax revenue remains the City's second largest revenue source, making up 27.7% of General Fund revenues.

NTMWD will not increase wholesale water rates in 2022, but will increase wastewater treatment rates including the Upper East Fork Interceptor for 2022 from \$3.74 per thousand gallons to \$3.94 per thousand

gallons. Wholesale water purchased from the district is projected to remain constant per thousand gallons. Wastewater rates however will increase 8.0% in 2022.

In recent years, NTMWD has implemented significant increases to the wholesale water rate. These increases have been required to pay for debt service and the increased treatment and operational costs associated with the \$300 million pipeline that was opened five years ago to bring raw water from Lake Texoma to NTMWD Wylie Water Treatment Plant, and also support the expansion of, and improvements to, the District's water treatment operations. This is coupled with additional expansion of water reservoirs, namely the Bois d'Arc Lake. These improvements ensure that the region has an adequate supply of drinking water for many years in the future. Replacing deteriorating pipelines, improving treatment plants and extending main lines into sprawling North Texas neighborhoods raise water costs.

Municipal drainage rates were last altered in July 2020 and January 2021. These increases were necessary in order to offset the additional debt cost associated with the renovation of the large drainage culvert at Collin Creek Mall. Currently, commercial drainage rates are \$0.115 cents per 100 square feet of impervious area while the average homeowner's monthly drainage bill is \$5.40.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's Accounting Division, at City of Plano, 1520 Avenue K, Suite 370, Plano, Texas 75074.

CITY OF PLANO, TEXAS RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION AS OF SEPTEMBER 30, 2021

Total fund balance per balance sheet	\$ 394,157,125
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the funds.	1,287,589,055
Deferred charges on refundings represent a consumption of net position that applies to future periods and, therefore, will not be recognized as an outflow of resources until then. The amount is deferred and amortized over the shorter of the life of	
the refunded or refunding debt.	1,910,484
Net pension asset and deferred outflows related to pensions and other postemployement benefits.	53,146,483
Internal service funds are used by management to charge the costs of equipment maintenance, municipal warehouse, technology services, risk management and health claims to individual funds. The assets and liabilities of the internal service	
funds are included in governmental activities in the statement of net position.	108,657,423
Long-term liabilities, including bonds payable and accrued interest, are not due and payable in the current period and, therefore, are not reported in the funds.	(560,070,134)
Deferred inflows represent an acquisition of net position that applies to future periods. The amount is unavailable and deferred at the fund level but recognized as revenue in the governmental activities.	13,130,136
Net pension and other postemployment benefits liability and deferred inflows related to pensions and other postemployment benefits.	(120,685,092)
Net position of governmental activities	\$ 1,177,835,480

CITY OF PLANO, TEXAS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2021

Net change in fund balances - total governmental funds	\$ 19,031,765
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	49,741,546
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	1,536,166
The issuance of long-term debt (bonds and tax anticipation notes) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(36,584,252)
Pension and other postemployement benefits net expense are not reported in governmental funds.	24,217,735
Pension and other postemployment benefits net expense in internal service funds	1,373,612
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	3,829,026
Internal service funds are used by management to charge the costs of equipment maintenance, municipal warehouse, technology services, risk management and health claims to individual funds. The net expenses of certain activities	(1 // (0 // ())))))))))
of internal service funds are reported within governmental activities. Change in net position of governmental activities	\$ (1,449,490) 61,696,108

CITY OF PLANO, TEXAS

NOTES TO BASIC FINANCIAL STATEMENTS

SEPTEMBER 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The City of Plano, Texas (City) was originally incorporated in 1873 and chartered on June 10, 1961. The City operates under a Council-Manager form of government and provides such services as authorized by its charter to advance the welfare, health, comfort, safety and convenience of the City and its inhabitants.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America (GAAP) applicable to state and local governments. GAAP for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *State and Local Governments – Audit and Accounting Guide*. The significant accounting policies of the City are described below.

A. Financial Statement Presentation

The basic financial statements are prepared in conformity with GAAP, which requires the government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities, business-type activities and activities of its discretely presented component units on the statement of net position and statement of activities. The City's statement of net position includes both noncurrent assets and noncurrent liabilities of the City. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements, which use the modified accrual basis of accounting and the current financial resources measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary and fiduciary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The Management's Discussion and Analysis (MD&A) provides an analytical overview of the City's financial activities. In addition, a budgetary comparison statement is presented that compares the original adopted and final amended General Fund and Debt Service Fund budgets with actual results. The City does not have any special revenue funds with legally adopted budgets.

B. Reporting Entity

The City is governed by an elected mayor and seven-member council. As required by GAAP, these financial statements present the City (the primary government) and its discretely presented component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and data from these units are combined with data of the primary government. A discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the City. The criteria for including organizations as component units within the

CITY OF PLANO, TEXAS NOTES TO BASIC FINANCIAL STATEMENTS (continued) SEPTEMBER 30, 2021

City's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name);
- the City appoints a voting majority of the organization's board;
- the City is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the City; or
- there is fiscal dependency by the organization on the City.

Discretely Presented Component Units.

The City has established a Tax Increment Financing District Number Two (TIF No. 2) for project improvements within the City. The TIF No. 2 provides financing for public improvements associated with the future development of East Plano. The project was approved by City Council in fiscal year 1999. The TIF No. 2 is legally separate from the City, and the City appoints a majority of its governing board; however, the entity is fiscally dependent on the City. All taxing entities, including the Plano Independent School District, Collin College and Collin County continued to participate through the initial term which expired December 31, 2014. In fiscal year 2014, the City passed an ordinance to extend the termination date for an additional 15 years. The additional 15-year term includes participation with the City, as well as, Collin County. Financial reports may be obtained by request to the City's Accounting Division, 1520 Avenue K, Suite 370, Plano, Texas 75074.

In December 2018, City Council approved Tax Increment Financing Reinvestment Zone Number Three (TIF No. 3) to support construction and development of the Silver Line (formerly Cotton Belt) Regional Rail Project in the City of Plano. TIF No. 3 consists of two non-contiguous areas within an approximate ½ mile walking distance of planned 12th Street and Shiloh Road Stations. A station along the Dallas Area Rapid Transit (DART) Red Line is also planned for the project. Properties within TIF No. 3 largely consist of commercial, industrial and office type uses. The base year for calculating tax increments is 2018. Contributions are limited to a total of \$12.3 million or the revenue on real property taxes levied through 2038, whichever occurs first. A portion of the increments collected from existing TIF No. 2 parcels within an approximate ½ mile walking distance of the proposed 12th Street Station shall also be dedicated to the project. Project expenditures are expected to begin third quarter of 2023 and, therefore, no expenses are reported in the current fiscal year.

On July 22, 2019, a development agreement for the Collin Creek Mall Redevelopment Project was approved between the City and Collin Creek Development, LLC (developer). As part of the agreement, City Council agreed to establish a tax increment reinvestment zone (TIRZ) and two public improvement districts. In 2020, City Council established TIRZ No. 4 to support the redevelopment of the mall and its surrounding commercial areas. The City Council adopted an ordinance upon finding that development or redevelopment of the property would not occur solely through private investment in the reasonably foreseeable future, that the zone is feasible and that public improvements in the zone will significantly enhance the value of all taxable real property in the zone and will be of general benefit to the City. The City has pledged 75% and the County has pledged 50% of their tax increment for 36 years. The revenue stream from the assessment will be used for projects benefitting the zone other than Collin Creek projects. The City, as a participant, will benefit from the new development within the zone and retain approximately \$54 million in net additional real property tax revenue.

The financial statements are formatted to allow the user to clearly distinguish between primary government and its discretely presented component units.

Blended Component Units.

The City has established the Downtown Plano Public Improvement District (PID) for project improvements and services for the Downtown Plano area, which benefits the primary government. The PID was approved in October 2014. In November 2017, City Council voted to renew the PID for an additional five years. The PID is utilized to provide additional improvements and services in Downtown Plano where funding is derived from a special assessment paid by downtown property owners and based on a property's taxable value. Chapter 372 of the Texas Local Government Code allows City Council to establish an advisory board for the PID, which has the responsibility of developing the improvement plan for the PID. The advisory board must consist of the property owners. Additionally, an executive committee is comprised of three property owners representing the greatest appraised property values, plus five other members to be elected by the entire advisory board. The executive committee shall prepare a service plan and assessment plan for consideration of the advisory board, whose recommendation shall be presented to City Council for review and approval. In fiscal year 2020, City Council expanded the boundary of the Downtown PID, which provided additional resources needed to stimulate greater business and residential activity and encourage a thriving downtown.

The Plano Improvement Corporation (PIC) was established as a 501(c)3 to serve as a non-profit corporation to facilitate real estate transactions and serve as an independent foundation for acceptance of donations. The City desired to create the PIC for the purpose of transfer of land and improvements that the City wants developed pursuant to Texas Local Government Code §272.001(b)(4). Occasionally, individuals, as well as, charitable corporations and foundations, desire to donate to the City to benefit the citizens of Plano. The City provides all financial support to the PIC and because the services provided by the PIC exclusively benefit the City, it is blended into the City's financial statements in the other governmental funds category.

As part of the redevelopment agreement discussed above related to TIRZ No. 4 and the Collin Creek project, the City established the Collin Creek East PID and the Collin Creek West PID. The funds of this blended component unit report the administrative portion of the initial startup of the PID organization. The City recognizes the positive impact the Collin Creek East and West PIDs will bring to the City and promote state and local economic development.

Related Organization.

The City's mayor appoints the board of the Plano Housing Authority, but the City's accountability for this organization does not extend beyond making the appointments. Thus, it is not included in the primary government or as a discretely presented component unit.

C. Upcoming and Newly Implemented Accounting Pronouncements

The GASB has issued the following statements:

GASB Statement No. 87, *Leases*, will increase the usefulness of government financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The City is currently evaluating the impact of this Statement.

GASB Statement No. 91, *Conduit Debt Obligations*, will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The adoption of Statement No. 91 has no impact on the City's financial statements.

GASB Statement No. 92, *Omnibus 2020*, establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements and derivative instruments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement are effective for various reporting periods beginning after June 15, 2020. The City has implemented this Statement.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, provides exceptions to the existing provisions for hedge accounting termination and lease modifications to ease the accounting requirements related to the transition away from interbank offered rates. It also identifies appropriate benchmark interest rates for hedging derivative instruments. Some requirements of this Statement will take effect for reporting periods ending after December 31, 2021 while other requirements are effective beginning with fiscal years that end June 30, 2022. The adoption of Statement No. 93 has no impact on the City's financial statements.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves financial reporting by addressing these relationships and availability payment arrangements. The requirements of this Statement are effective fiscal years beginning after June 15, 2022. The City is currently evaluating the impact of this Statement.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA), provides guidance on the accounting and financial reporting of contractual arrangements. It defines SBITA; establishes that a SBITA results in a right-to-use subscription asset; provides capitalization criteria; and requires note disclosures. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. The City is currently evaluating the impact of this Statement.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, increases consistency and comparability related to the reporting of fiduciary component units in circumstances in which potential component unit does not have a governing board and the primary government performs the duties that governing board typically would perform; mitigate costs associated with the reporting of certain defined contribution pension, OPEB and benefit plans other than pension or OPEB plans; and enhance the relevance, consistency and comparability of the accounting and financial reporting for Internal Revenue Code Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans. The requirements of this Statement related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021. The City is currently evaluating the impact of this Statement for the requirements effective in fiscal year 2022. All other requirements of this Statement are effective immediately.

GASB Statement No. 98, *The Annual Comprehensive Financial Report*, establishes the term annual comprehensive financial report and its acronym ACFR. The requirements of this Statement are effective for fiscal years ending after December 15, 2021. The City has implemented this Statement.

D. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements; the focus is either the City as a whole or major individual funds (within the fund financial statements). The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The exception to this general rule is interfund services provided by the internal service funds. Elimination of these charges would distort the direct costs reported for the various functions concerned. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (police, fire, public works, etc.) or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment; (2) grants and contributions that are restricted to meeting the operational requirements of a particular function or segment; and (3) grants and contributions that are restricted to meeting the capital requirements of a particular function or segment. Taxes and other items properly excluded from program revenues are reported instead as general revenues.

The net cost (by function or business-type activity) is normally covered by general revenue, such as property and sales taxes, franchise fees and interest income.

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The major governmental funds are the General, Debt Service, Capital Maintenance, Street Improvements, Municipal Facilities, Park Improvements, Economic Development Incentive and Grant funds. The major enterprise funds are the Water and Sewer, Sustainability and Environmental Services and Municipal Drainage funds. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a separate column in the fund financial statements.

Internal service funds, which traditionally provide services primarily to other funds of the government, are presented in the summary form as part of the proprietary fund financial statements. Because the principal users of the internal services are the City's governmental activities, financial statements of internal service funds are consolidated into the governmental activities column when presented at the government-wide level. To the extent possible, the cost of these services is reflected in the appropriate functional activity (police, fire, public works, etc.). The City's internal service funds consist of Equipment Maintenance, Municipal Warehouse, Technology Services, Risk Management and Health Claims funds.

The City's fiduciary funds are presented only in the fund financial statements. Since by definition these assets are being held for the benefit of a third-party (other local governments, individuals, pension participants, developer projects, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The City's fiduciary funds consist of funds that account for the Pension Trust and Other Post-Employment Benefits (OPEB) Trust Funds, as well as, custodial funds related to the Collin Creek Mall redevelopment project.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal year. The focus of the fund financial statements is on the major individual funds of the governmental and proprietary categories, as well as, the fiduciary funds. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

E. <u>Measurement Focus and Basis of Accounting</u>

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund statements. The economic resources measurement focus means all assets, liabilities and deferred outflows and inflows (whether current or noncurrent) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of

accounting, revenues are recognized when earned, including unbilled water and sewer services, which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, in other words, as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 30 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as, expenditures related to compensated absences and claims and judgments, are recorded only when the obligation has matured and is due and payable shortly after year-end.

Ad valorem, franchise and sales tax revenues recorded in the General Fund and ad valorem tax revenues recorded in the Debt Service Fund are recognized under the susceptible to accrual concept.

Licenses and permits, charges for services, fines and forfeitures, contributions and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is not measurable. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Intergovernmental grant revenues are recognized when all eligibility requirements have been met. Additionally, funds received in advance for which all eligibility requirements have not been met are considered unearned revenue.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as needed.

Paving assessments in the Street Improvements Fund are recorded as revenues when cash is received. The assessments are measurable when assessed but are generally not available for use.

Proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows, liabilities and deferred inflows associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases (revenues) and decreases (expenses) in total net position. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Water and Sewer, Sustainability and Environmental Services, Municipal Drainage, Convention and Tourism, Municipal Golf Course, Downtown Center Development and Recreation Revolving Funds are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The following major funds are used by the City:

1. Governmental Funds:

The focus of governmental fund measurement (in the fund financial statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the major governmental funds of the City:

a. The General Fund accounts for several of the City's primary services (police, fire, public works, libraries, parks and recreation, etc.) and is the primary operating unit of the City.

- b. The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.
- c. The Capital Maintenance Fund accounts for the financing of betterments and renewals to the City's facilities and infrastructure and for public improvements not requiring general obligation bond financing.
- d. The Street Improvements Fund accounts for the financing and acquisition of right-of-way and construction of streets, storm sewers and alleys. Resources are provided primarily through bond sales, paving assessments and interest earnings.
- e. The Municipal Facilities Fund accounts for the financing and construction of various City facilities. Funds are provided primarily through bond sales and interest earnings.
- f. The Park Improvements Fund accounts for the financing and construction of park projects. Funds are provided primarily through bond sales and interest earnings.
- g. The Economic Development Incentive Fund accounts for \$0.02 of ad valorem revenue designated by City Council for stimulating economic development for the City through usage of Chapter 380 agreements as authorized by the Texas Local Government Code.
- h. The Grant Fund accounts for resources received from other governmental agencies.

2. Enterprise Funds:

The focus of proprietary funds measurement is upon determination of operating income, changes in net position, financial position and cash flows, which is similar to businesses. The following is a description of the major enterprise funds of the City:

- a. The Water and Sewer Fund accounts for the operation of the City's water and sewer utilities. Activities of the fund include administration, operation and maintenance of the water and sewer system and billing and collection activities. All costs are financed through charges made to utility customers with rates reviewed regularly and adjusted, if necessary, to ensure financial integrity of the fund.
- b. The Sustainability and Environmental Services Fund accounts for the provision of environmental services to customers who are billed monthly at a rate sufficient to cover the cost of providing such services.
- c. The Municipal Drainage Fund accounts for the City's storm water management program.

Other Fund Types:

The City additionally reports for the following fund types:

- a. Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, generally on a cost-reimbursement basis.
- b. Fiduciary funds are used to account for the accumulation of resources to be used for the retirement benefit payments, postemployment health benefits for employees of the City and project redevelopment of the Collin Creek Mall area.

F. Cash, Cash Equivalents and Investments

Cash and cash equivalents include cash on hand, demand deposits, escrow cash with a fiscal agent and short-term investments with original maturities of three months or less from the date of acquisition.

Cash and cash equivalents for government-wide funds are pooled in order to maximize investment opportunities. Although individual funds may experience temporary overdraft liabilities, a positive balance is maintained in combined cash.

All investments are recorded at fair value based on quoted market prices, except for certificates of deposit and investments in government pools, which are recorded at amortized cost and certain Pension and OPEB Trust funds that are measured at net asset value. Amortized cost approximates fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

G. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either interfund advances or interfund receivable/payable. All other outstanding balances between funds are reported as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

H. <u>Inventories, Prepaid Items and Other Assets</u>

Inventories of supplies are maintained at the City warehouse for use by all City funds and are accounted for by the consumption method. They are valued at cost, which is determined using a weighted-average method. The cost of governmental fund type inventory is recorded as an expenditure when consumed rather than when purchased.

Prepaid items are for payments made by the City in the current year to receive services occurring in the subsequent fiscal year, utilizing the consumption method. Inventories and prepaid items are reflected as nonspendable fund balance in the governmental funds.

I. <u>Interfund Transactions</u>

Short-term advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Long-term advances between funds are accounted for in the appropriate interfund receivable and payable accounts and fund balance is nonspendable for these amounts. All legally authorized transfers are appropriately treated as transfers and are included in the results of operations of both governmental and proprietary funds. Nonrecurring or nonroutine transfers of equity between funds, for example, contribution of capital assets to a proprietary fund or transfers of residual balances of discontinued funds to other funds, are accounted for as transfers.

J. Capital Assets

Property, plant and equipment purchased or acquired are carried at historical cost or estimated historical cost. Contributed capital assets are recorded at acquisition value at the time received. Public domain (infrastructure) capital assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems have been recorded at estimated historical cost. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government and business-type activities are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	15 - 40
Improvements other than buildings	20 - 50
Equipment	2 - 10
Furniture and fixtures	5 - 10
Drainage improvements	50
Meters	10
Storm/sanitary sewer	50
System infrastructure	30 - 50

K. <u>Compensated Absences</u>

City employees are granted vacation and sick leave in varying amounts. Employees are required to utilize a minimum of 40 hours of vacation per year. Upon termination and completion of five years of service, an employee is reimbursed for accumulated vacation up to 480 hours. Vacation leave in excess of 480 hours will not be reimbursed upon termination. Full-time, non-civil service employees, with at least five years of service, are eligible to be paid out for unused sick leave upon termination up to 720 hours. However, fire department civil service shift personnel may be paid for up to 1,080 hours. Accumulated vacation and sick leave is accrued when incurred in the government-wide and proprietary financial statements.

L. Federal and State Grants

Grants and shared revenues are generally accounted for within the fund financed. Federal grants are accounted for within the Grant Fund (special revenue), Street Improvements Fund (capital projects) and Park Improvements Fund (capital projects). Various state grants are also included in the Grant Fund and Street Improvements Funds. Grant revenues received for purposes normally financed through the general government are accounted for within the General Fund and those for specific purposes in the special revenue funds.

M. Retirement Plans

The City has two separate retirement plans, Texas Municipal Retirement System (TMRS) and Retirement Security Plan (RSP), covering substantially all employees. In addition, the City has a deferred compensation plan and an OPEB plan (Section 115 Other Post-Employment Benefits Trust or 115 Trust). It is the City's policy to record the cost for such plans on the accrual basis (see Note 5).

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Difference in expected and actual experience for the pension and OPEB plans This difference is deferred and recognized over the estimated average remaining service lives of all members determined as of the measurement date.
- Changes in actuarial assumptions used to determine pension liability for the pension plans This
 difference is deferred and amortized over the estimated average remaining service lives of all
 members determined as of the measurement date.

- Pension and OPEB plans' employer contributions after measurement date These contributions are deferred and recognized in the following fiscal year.
- Deferred charges on refundings This outflow results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has the following items that qualify for reporting in this category.

- Unavailable revenue These deferred inflows are reported on the governmental funds balance sheet as the funds are not received soon enough after year end to pay liabilities of the current period. These deferred inflows are reclassified to revenue on the governmental-wide financial statements.
- Difference in expected and actual experience for the pension and OPEB plans This difference is deferred and recognized over the estimated average remaining service lives of all members determined as of the measurement date.
- Changes in actuarial assumptions used to determine liabilities for the OPEB plan This difference is deferred and amortized over the estimated average remaining service lives of all members determined as of the measurement date.
- Difference in projected and actual investment earnings on pension and OPEB plans' assets This
 difference is deferred and amortized over a closed five-year period.

O. Long-Term Debt

General Obligation bonds issued for general government capital projects that are to be repaid from tax revenues of the City are recorded in the government-wide statement of net position. Tax anticipation notes have been issued to fund permanent public improvements related to public safety communications and network infrastructure. Such notes are to be repaid from tax revenues of the City and are recorded in the government-wide statement of net position. Revenue bonds issued for proprietary fund assets that are to be repaid by the proprietary fund are recorded in the proprietary funds.

Revenue bonds have been issued to fund capital projects of proprietary funds. Such bonds are to be repaid from the net revenues of the applicable proprietary fund. To date, revenue bonds have been issued for municipal drainage and waterworks and sewer system improvements.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method in the government-wide financial statements. Issuance costs are recognized as an expense in the period incurred. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as, issuance costs, in the current period. The face amount of the debt issued is reflected as other financing sources. Premiums are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

P. Net Position

In the government-wide and proprietary funds financial statements, the net position is reported in three components: (1) net investment in capital assets, (2) restricted and (3) unrestricted. Net investment in capital assets represents the City's total investment in capital assets, net of depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. The unrestricted component of net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

The Sustainability and Environmental Services Fund reported negative net position of \$985,056 at September 30, 2021. Although net position is negative, net position increased \$1,314,502, attributed to the monthly residential rate increase for 95-gallon carts effective November 1, 2020. With the recent growth in residential and commercial customers, the need for additional services is warranted which stems from increased personnel and contractual related expenses.

The Grant Fund also reported negative fund balance of \$1,121,783 at September 30, 2021, due to reimbursements not being received within 30 days and, therefore, not considered available to pay liabilities of the current period.

The net position of the Collin Creek West PID Custodial Fund is negative \$3,486,431 as project expenses have begun prior to assessment revenues being collected. As a fiduciary fund, the Collin Creek West PID Custodial Fund does not consolidate into the government-wide statement.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. <u>Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position</u>

The governmental fund balance sheet includes a reconciliation between fund balance and net position of governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains, "Long-term liabilities, including bonds payable and accrued interest, are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Bonds and tax anticipation notes payable	\$ (475,530,000)
Bond premium	(37,548,273)
Accrued interest payable	(1,629,319)
Compensated absences	 (45,362,542)
	\$ (560,070,134)

B. <u>Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities</u>

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between net change in fund balances and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of the reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$ 107,477,666
Depreciation expense	(57,519,850)
Other capital-related transactions	 (216,270)
	\$ 49,741,546

Another element of the reconciliation states, "The issuance of long-term debt (bonds and tax anticipation notes) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this difference are as follows:

Bonds issued:	
New money	\$ (62,595,000)
Refunded bonds	(11,490,000)
Premium	(7,392,136)
Payment to escrow agent	13,110,000
Interest to escrow agent	252,884
Principal payments	 31,530,000
	\$ (36,584,252)

The reconciliation also states, "Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this difference are as follows:

Changes in:	
Compensated absences	\$ (1,596,727)
Accrued interest	24,227
Amortization of deferred charge on refunding	(1,350,849)
Amortization of bond premium	 6,752,375
	\$ 3,829,026

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Legal Compliance - Budgets

The City Charter contains the following requirements, which are adhered to by City Council, regarding preparation of the annual budget:

- The City Manager, between 60 and 90 days prior to October 1 of each fiscal year, shall submit to the Council a proposed budget. Such budget shall provide a complete financial plan for the fiscal year.
- At the meeting of City Council at which the budget is submitted, City Council shall fix the time and
 place of a public hearing on the budget and shall cause to be published in the official newspaper
 of the City, a notice of the hearing setting forth the time and place thereof at least five days before
 the date of such hearing.
- The budget shall be finally adopted no later than 15 days prior to the beginning of the fiscal year and should City Council fail to so adopt a budget, the then existing budget together with its taxlevying ordinance and its appropriation ordinance, shall be deemed adopted for the ensuing fiscal year.

City Council approves annual appropriations for operations and interfund transfers for all operating and debt service funds. Only the General Fund and Debt Service Fund have legally adopted annual budgets. The City Manager has the authority to transfer unexpended balances between departmental budgets within appropriated funds. City Council, however, must approve any increase in fund appropriations. The legal level of budgetary control is the fund level. During the year, there was an appropriation increase of \$1,973,584 for the General Fund. Funds with operating appropriations and interfund transfers set by ordinance include the General Fund and Debt Service Fund. During the year, appropriations are adjusted as a result of re-estimates by the departments. For budgetary purposes, unencumbered appropriations lapse at fiscal year-end.

Budgets and Budgetary Basis of Accounting

The Budgetary Comparison Schedule, included in the required supplementary information section of this report, presents a comparison of budgetary data to actual results of operations for the General Fund, for which an annual operating budget is legally adopted. This fund utilizes the same basis of accounting for both budgetary purposes and actual results, with the following exceptions:

- The portion of ad valorem tax revenues in the General Fund from "rolled back" tax payments (those taxes, up to five years back, on properties previously taxed at special use exemption values and currently changed to full values) are excluded from the budgetary basis tax revenues and from the general governmental expenditures.
- The General Fund encumbrances are added to the actual expenditures for budgetary comparison.
- The GASB 31 fair value adjustments are excluded for budgetary comparison.

Nature and Purpose of Classifications of Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Fund balance should be reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as, through debt covenants). grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provision or enabling legislation. Fund balance should be reported as committed when amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed fund balance also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. Fund balance should be reported as assigned for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by the governing body itself, or a body or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. Unassigned fund balance is the residual classification for the General Fund and includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

Open encumbrances are recorded as assignments of fund balance as of September 30 of each year, and the subsequent year's budget is increased to reflect these encumbrances. Unspent and unencumbered appropriations lapse at the end of the fiscal year. Below are details of encumbrances at September 30, which are classified as a portion of assigned fund balance:

Assigned to encumbrances:

Governmental funds

orring range	
General	\$ 4,604,745
Capital maintenance	19,885,865
Street improvements	37,165,460
Municipal facilities	8,422,848
Park improvements	13,457,107
	\$ 83,536,025

City Council is the City's highest level of decision-making authority and the formal action that is required to be taken to establish, modify or rescind a fund balance commitment is a resolution approved by City Council. This can also be done through adoption or amendment of the budget. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

City Council has authorized the City Manager as the official to assign fund balance. Such assignments cannot exceed the available (spendable, unrestricted and uncommitted) fund balance in any particular fund.

When multiple categories of fund balance are available for expenditure (for example, a construction project is being funded partly by a grant, funds set aside by City Council and unassigned fund balance), the City will start with the most restricted category and spend those funds first before the next category with available funds.

It is the desire of the City to maintain adequate General Fund balance to maintain liquidity and in anticipation of economic downturns or natural disasters. City Council has adopted a financial standard to maintain a General Fund minimum unassigned fund balance of 30 days working capital.

IV. DETAILED NOTES ON ALL FUNDS

1. DEPOSITS AND INVESTMENTS:

Deposits

Pursuant to provisions of both the Texas Public Funds Investment Act (PFIA) and the Public Funds Investment Policy of the City, all deposits of the City that exceed the federal depository insurance coverage level are collateralized with an irrevocable letter of credit at 100% or by securities held by a third party custodian and pledged to the City in an amount not less than 102% (on a fair value basis) of the City's deposit of public funds and any accrued interest.

At September 30, 2021, the carrying amount of the City's demand deposits was \$26,153,228, which includes component units' deposits of \$431,005. The bank balance was \$26,753,688. Cash on hand totaled \$1,403,682. The carrying value and the bank balance of the City's non-negotiable certificates of deposit (CD) were \$103,818,528, which includes component units' deposits of \$1,511,561. The carrying value of cash held in trust by a bank trust department for the Pension and Other Post-Employment Benefits Trust Funds was \$1,804,684. The carrying value of cash held in trust by a bank trust department for the Collin Creek Custodial Funds was \$98,018,950.

Investments – Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs or quoted prices in markets that are not active; and Level 3 inputs are significant unobservable inputs. As of September 30, 2021, the City does not value any of its investments using Level 3 inputs. Additionally, the Pension and Other Post-Employment Benefits Trust Funds have investments measured at the Net Asset Value (NAV). Investments measured at NAV are not classified in the fair value hierarchy.

The City has the following recurring fair value measurements as of September 30, 2021:

- U.S. agencies of \$284.5 million are valued using matrix pricing (Level 2 inputs)
- Municipal bonds of \$164.0 million are valued using quoted market prices in markets that are not active (Level 2 inputs)

The Pension and Other Post-Employment Benefits Trust Funds have the following recurring fair value measurements as of September 30, 2021:

- Fixed income investments of \$42.4 million are valued using quoted market prices (Level 1 inputs)
- Equities of \$220.4 million are valued using quoted market prices (Level 1 inputs)

At September 30, 2021, the City's investment balances measured at fair value levels were as follows:

	9/30/2021		oted Prices in ive Markets for entical Assets Primary Government (Level 1)	Obs	Inificant Other servable Inputs Primary Government (Level 2)	Obse Con	ificant Other rvable Inputs nponent Unit (Level 2)	Weighted Avg Maturity (Years)
Government-wide		_						
U.S. agencies	\$ 284,495,961	\$	-	\$	277,966,048	\$	6,529,913	1.3325
Municipal bonds	163,998,617		-		163,998,617		-	0.4567
Total Government-wide	448,494,578				441,964,665		6,529,913	1.7892
Trust Funds								
Pension and Other								
Post-Employment Benefits:								
Fixed income funds	42,416,828		42,416,828		-		-	NA
Domestic equity funds	146,350,835		146,350,835		-		-	NA
International equity funds	73,993,093		73,993,093		-		-	NA
Total Investment Trust Funds	262,760,756		262,760,756				-	
Total Investments Measured at Fair Value	711,255,334	\$	262,760,756	\$	441,964,665	\$	6,529,913	

At September 30, 2021, the City's investment balances measured at the net asset value (NAV) per share (or its equivalent) were as follows:

	9/30/2021	Unfunded Commitments		Redemption Frequency	Redemption Notice Period
Trust Funds					
Pension and Other					
Post-Employment Benefits:					
Real estate collective trusts	\$ 22,265,942	\$	-	Quarterly	45 days
Collective investment trusts	 46,827,132		<u>-</u>	Not limited	None
Total Investments Measured at the NAV	 69,093,074	\$			
Total Investments	\$ 780,348,408				

In addition, the City had investments in government pools at September 30, 2021 totaling \$71,566,259, which are recorded at amortized cost. These investments in government pools includes component units' deposits of \$1,041,975. GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, establishes criteria for an external investment pool to qualify for making an election to measure all of its investments at amortized cost. The City does not have any limitations or restrictions on withdrawals.

Investments in the Pension and the Other Post-Employment Benefits Trust Funds are held by a bank trust department, apart from the overall City's cash and investments. The City employs the services of professional investment managers, an investment consultant and a custodial bank to retain the assets and administer benefit payments of the Pension and Other Post-Employment Benefits Trust Funds. The investments are subject to the policies and guidelines established by the Pension and Other Post-Employment Benefits Trust Funds committee members.

The City is authorized to invest in: (1) obligations of, or guaranteed by, governmental entities; (2) certificates of deposit, issued by a depository institution that has its main office or branch in Texas; (3) fully collateralized repurchase agreements having a defined termination date; (4) commercial paper having a stated maturity of 270 days or fewer and is rated not less than A-1 or P-1 or an equivalent rating by at least two nationally recognized credit rating agencies or one nationally recognized credit rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state; (5) no-load money market mutual funds registered and regulated by the

SEC having a dollar-weighted average stated maturity of 90 days or fewer, or no-load mutual funds registered with the SEC, having an average weighted maturity of less than two years and continuously rated of not less than AAA or its equivalent; and (6) eligible investment pools that invest in instruments and follow practices allowed by current law as defined by PFIA, provided that each investment meets guidelines set forth by the City's investment policy.

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from increasing interest rates, the City's investment policy establishes the portfolio's maximum average dollar-weighted maturity of no more than two and a half years. By policy, the City will not directly invest in securities maturing more than five years from the date of purchase.

Credit Risk. The City's investment policy, in conjunction with state law, specifies the type of credit rating of all authorized investments. The City's investments in U.S. Agency securities, including, U.S. Agency for International Development (AID), Tennessee Valley Authority (TVA), Federal National Mortgage Association (FNMA) and Federal Farm Credit Bank (FFCB), are rated AA+ by Standard and Poor's and Aaa by Moody's Investors Service. The investment in the Texas Local Government Pools (Texas Class, Texas Daily and Texas Fixed Income Trust) carried a credit rating of AAAm by Standard & Poor's as of September 30, 2021.

Custodial Credit Risk. For deposits, custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's investment policy follows state statutes, which require that all deposits in financial institutions be fully collateralized or insured. For investments, custodial credit risk is the risk that in the event of the failure of a counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that all investments held by outside parties for safekeeping be held in the name of the City. The City was not exposed to any custodial credit risk during the year.

Concentration of Credit Risk. With the exception of U.S. Treasury securities and authorized pools, the City's investment policy limits the amount that may be invested in any one security type to 50% of the total investment portfolio. As of September 30, 2021, five percent (5%) or more of the City's total investments are in municipal bonds (27.6%), Federal Agricultural Mortgage Corporation (7.8%), Federal Home Loan Bank (6.5%), Federal National Mortgage Association (10.3%), certificates of deposits (17.86%), and investment pools (17.9%), on a fair value basis.

2. PROPERTY TAXES:

The City's ad valorem or property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the City. The property taxes attach as an enforceable lien on property as of January 1. Appraised values are established by the Central Appraisal Districts of Collin and Denton Counties at 100% of estimated market value and certified by the Appraisal Review Boards. The original certified assessed value for the tax roll of January 1, 2020 was \$46,564,855,153. Subsequent adjustments decreased this value to \$45,179,102,140.

Taxes are due October 1 and become delinquent after the following January 31. Penalty and interest is charged at 7% on delinquent taxes beginning February 1, and increases each month to 18% on July 1.

Property taxes at the fund level are recorded as receivables and deferred revenues at the time the tax levy is billed. Current year revenues recognized are those ad valorem taxes collected within the current period or soon enough thereafter to pay current liabilities, generally thirty days after year-end. Current tax collections for the year ended September 30, 2021, were 99.7% of the tax levy.

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to \$2.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. The tax rate to finance general governmental services,

including debt service, for the year ended September 30, 2021, was \$0.4482 (\$0.3372 for general government and \$0.1110 for debt service) per \$100 of assessed valuation. Thus, the City has a tax margin of \$2.0518 per \$100 and could have levied up to \$926,984,818 in additional taxes from the present assessed valuation.

In Texas, countywide central appraisal districts are required to assess all property within the appraisal district on the basis of 100% of its appraised value and are prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every five years; however, the City, at its own expense, requires annual reviews of appraised values. The City may challenge appraised values established by the appraisal district through various appeals, and, if necessary, legal action. Under this system, the City sets tax rates on City property. However, if the no-new-revenue rate, excluding tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 3.5%, an election is required to determine whether to limit the tax rate to no more than 3.5% above the tax rate of the previous year.

3. RECEIVABLES:

Receivables at September 30, 2021 for the government's individual major funds and nonmajor, internal service and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, consist of the following:

	Property Taxes	Other Taxes	Accounts	Accrued Interest	Assessments	Other	Gross Receivables	Allowance for Uncollectibles	Net Total Receivables
General	\$ 2,321,293	\$ 17,010,592	\$ 1,368,910	\$ 326,528	\$ -	\$ -	\$ 21,027,323	\$ (1,730,066)	\$ 19,297,257

Future expenditures for capital projects will be funded from federal and state grants, as well as, unexpended bond proceeds and additional general obligation or revenue bonds and operating revenues. In May 2019, \$44,665,000 of various purpose General Obligation bonds were authorized, of which \$32,110,000 have been issued. In May 2021, \$363,965,000 of various purpose General Obligation bonds were authorized, of which none have been issued.

5. EMPLOYEE BENEFIT PLANS:

Summary of Significant Accounting Policies

For purposes of measuring the pension and OPEB net liabilities, deferred outflows and inflows of resources and expense, information about the fiduciary net position of TMRS, RSP and 115 Trust and additions to/deductions from Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, Plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

A summary of the pension and OPEB net liabilities, deferred outflows and inflows of resources and expenses are below and discussed in further detail in this footnote.

	Pension			Total		OPEB	
		TMRS	RSP		Pension		115 Trust
Net liability (asset)	\$	55,021,601	\$ (14,036,741)	\$	40,984,860	\$	6,188,875
Deferred outflow		24,816,872	12,720,810		37,537,682		8,366,561
Deferred inflow		35,727,125	18,701,265		54,428,390		21,093,161
Expense (income) in current year		12,123,511	2,405,078		14,528,589		(480,485)

A. <u>Texas Municipal Retirement System Plan</u>

Plan Description

The City participates as one of 895 plans in the defined benefit cash-balance plan administered by TMRS. TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS issues a publicly available Comprehensive Annual Financial Report (Annual Report) that can be obtained at *tmrs.com*.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits, with interest, were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a partial lump sum distribution in an amount equal to 12, 24 or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150% or 200%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount, which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated, with interest, if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his or her salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions, with interest, and the employer-financed monetary credits, with interest, were used to purchase an annuity.

Plan provisions for the City were as follows:

Employee deposit rate 7%

Matching ratio (City to employee) 2 to 1

A member is vested after 5 years

Service retirement eligibility 20 years at any age, 5 years at age 60 and above

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	1,442
Inactive employees entitled to but not yet receiving benefits	1,134
Active employees	2,371
	4,947

Contributions and Funding Policy

Member contribution rates in TMRS are either 5%, 6% or 7% of the members total compensation, and the city matching percentages are either 100%, 150% or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal actuarial cost method. The city's contribution rate is based on the liabilities created from the benefit plan options selected by the city and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 7% of their annual compensation during the fiscal year. The City's contribution rate requirement set by TMRS was 16.71% for the months October through December 2020 and 16.68% for the months in calendar year 2021. The City's actual contributions to TMRS were at 17.21% for fiscal year 2021, which provided for additional voluntary contributions. The City's contributions to TMRS for fiscal year 2021 were \$31,809,437.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The TPL in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation: 2.5% per year

Overall payroll growth: 2.75% per year, adjusted down for population declines, if any Investment rate of return: 6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for employees, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a four-year set-forward for males and a three-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become

disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation, as well as, the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, the actuary focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2021 are summarized in the following table:

Asset Class	Target Allocation	_	Long-Term Expected Real Rate of Return (Arithmetic)	-
Global equity	30.00	%	5.30	%
Core fixed income	10.00		1.25	
Non-core fixed income	20.00		4.14	
Real return	10.00		3.85	
Real estate	10.00		4.00	
Absolute return	10.00		3.48	
Private equity	10.00	_	7.75	
Total	100.00	%		

Discount Rate

The discount rate used to measure the TPL was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Changes in the Net Pension Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance at December 31, 2019	\$ 1,129,264,255	\$ 1,055,688,438	\$ 73,575,817
Changes for the year:

Net change	57,864,287	76,418,503	(18,554,216)
Balance at December 31, 2020	\$ 1,187,128,542	\$ 1,132,106,941	\$ 55,021,601

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the NPL of the City, calculated using the discount rate of 6.75%, as well as, what the City's NPL would be if it were calculated using a discount rate that is 1-percentage-point-lower (5.75%) and 1-percentage-point-higher (7.75%) than the current rate:

1	% Decrease	Curr	ent Single Rate	1	% Increase
	5.75%	Assumption 6.75%		7.75%	
\$	220,516,485	\$	55,021,601	\$	(81,261,542)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the Schedule of Changes in Fiduciary Net Position, by participating city and may be obtained at www.tmrs.com.

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended September 30, 2021, the City recognized pension expense of \$12,123,511.

At September 30, 2021, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	 erred Outflows f Resources	Deferred Inflows of Resources		
Difference in expected and actual experience Difference in assumption changes Difference in projected and actual investment earnings Employer contributions subsequent	\$ 168,340 1,207,503 -	\$	(5,828,346) - (29,898,779)	
to the measurement date	23,441,029		-	
	\$ 24,816,872	\$	(35,727,125)	

Deferred outflows of resources of \$23,441,029 related to employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for fiscal year 2022. Other amounts reported as deferred outflows and inflows of resources will be recognized in pension expense in the following fiscal years:

2022	\$ (12,624,102)
2023	(437,697)
2024	(18,522,715)
2025	(2,684,069)
2026	(82,699)
Total	\$ (34,351,282)

B. Retirement Security Plan

Plan Description

On January 1, 1983, the City withdrew from the Federal Social Security system and created the RSP, a single-employer, defined benefit pension trust fund, to provide retirement benefits for all full-time employees of the City. The Plan is created by City ordinance and administered by a committee of five or more, not to exceed seven, which meets a minimum of four times a year. Professional investment management and an investment consultant are used, and a custodial bank retains the assets and provides for administration of benefit payments.

The Plan issues a separate publicly available financial report that includes financial statements and required supplementary information. The financial report may be obtained by request to the City's Human Resources Department, 1520 Avenue K, Suite 130, Plano, Texas 75074.

Benefits Provided

As of the December 31, 2019 biennial actuarial valuation, the following employees were covered by the benefit terms:

inactive employees or beneficiaries currently receiving benefits	933
Inactive employees entitled to but not yet receiving benefits	81
Active employees	2,256
	3,270

Retirement benefits become vested after five years of service. Members who terminate employment prior to completing five years of service are not eligible for any benefit and all contributions made on their behalf remain with the plan. Members are eligible to receive full retirement income benefits when they reach age 65 or reduced benefits when they reach a younger age and meet certain length-of-service requirements. Early retirement benefits are paid upon completion of 20 years of vesting service (TMRS credited service) or upon attaining age 60 with five years of vesting service. At least five years must be with the City. The RSP provides retirement income benefits, with annual cost-of-living adjustments, based on a member's years of service, average compensation (highest three years of last ten), and choice of single or joint-life monthly payments or a lump-sum payment as follows.

For normal retirement, the monthly benefit payment is calculated as follows:

.007 X City of Plano credited service since January 1, 1983 (not to exceed 25 years) X average compensation (highest 3 years of last 10).

Early retirement benefits paid upon completion of 20 years of vesting (TMRS credited service) or upon attaining age 60 with 5 years of vesting service with the City are calculated as follows:

.007 X City of Plano credited service since January 1, 1983 (not to exceed 25 years) X average compensation (highest 3 years of last 10) X a reduction factor based on the number of years which the benefit start date precedes the normal retirement date. The benefit amount is reduced by one-fifteenth (1/15) for each of the first five years and one-thirtieth (1/30) for each of the next five years (and on an Actuarial Equivalent basis thereafter) by which the starting date of payments precedes the employee's normal retirement date.

Benefits are paid as a monthly life annuity to the participant, with a guarantee that should the participant die prior to receiving 60 monthly payments, the payments will continue to a beneficiary for the balance of the 60-month period. There is no reduction factor if the participant waits until age 65 to begin drawing a monthly benefit.

A lump-sum payment option is available to eligible employees. Lump-sum payments follow these guidelines:

When lump-sum value is less than \$5,000, the benefit must be in form of a single lump-sum payment.

When lump-sum value is \$5,000 - \$25,000, participant has a choice of single lump-sum payment or monthly annuity payments.

When lump-sum value exceeds \$25,000, the participant must receive monthly annuity payments.

Joint and survivor options are available. Additionally, benefits are available for members who become totally and permanently disabled. Each April 1, retirement benefits that have been paid for at least 12 months are adjusted to reflect changes in the U.S. Consumer Price Index (not to exceed 4%), as determined by the Plan's actuary. This cost of living adjustment is applied to only the participant's benefits; spouses or beneficiaries are excluded.

Contributions and Funding Policy

Contributions by the City are established as part of the City budget process and the actuarially determined percentage of each payroll. No employee contributions are required by the plan. The City contributed \$6.358.994 for the year ended September 30, 2021.

The contribution amount is a 14-year level percentage of pay funding with a 2.75% payroll growth assumption. This funding approach produces a contribution pattern that is intended to increase in amount from year to year but remain relatively constant as a percent of payroll. Administrative costs, including investment, custodial trustee and actuarial services, are charged to the plan.

Net Pension Liability

The City's NPL at December 31, 2020 is based on a roll forward of the actuarial valuation performed as of December 31, 2019.

Actuarial Assumptions

The TPL was determined by an actuarial valuation as of December 31, 2019 using the following actuarial assumptions:

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method: Entry Age Normal

Amortization method: Level percentage of payroll, closed
Remaining amortization period: 14 years as of the measurement date
Asset valuation method: 5-year smoothed market; 20% corridor

Inflation: 2.50%

Salary increases: 8.00% to 2.75%, including inflation

Investment rate of return: 7.00%

Retirement age: Experience-based table of rates that are specific to the type of eligibility condition.

Mortality: RP-2000 mortality for combined healthy annuitants with blue-collar adjustment.

Male rates are multiplied by 1.09 and female rates are multiplied by 1.03.

Generational mortality improvements applied using Scale BB.

Rate of Return

Asset Class	Long-Term Expected Arithmetic Real Rate of Return	Target Asset Allocation	Development of Long-Term Arithmetic Return for Investment Portfolio
Domestic equity	6.25%	50%	3.13%
International equity	6.81%	15%	1.02%
Fixed income	2.01%	25%	0.50%
Core real estate	4.26%	10%	0.43%
Cash equivalents	0.25%	0%	0.00%
	Total Expected	Arithmetic Real Return:	5.08%
	Inflation Assumption	for Actuarial Valuation:	2.50%
	Total Expected Arit	hmetic Nominal Return:	7.58%

Discount Rate

A single discount rate of 6.75% was used to measure the TPL for the measurement period ending December 31, 2020. This single discount rate was based on the expected rate of return on pension plan investments of 6.75%. Based on the stated assumptions and the projection of cash flows as of each year ending December 31, the Plan's fiduciary net position and future contributions were sufficient to finance all the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the TPL.

The projection of cash flows used to determine the single discount rate for the Plan assumed that the funding policy adopted by the RSP's Committee will remain in effect for all future years. Under this funding policy, the City of Plano will finance the unfunded actuarial accrued liability as a level percentage of payroll over the closed period ending September 30, 2035. Under this policy there are 14 years remaining in the amortization period.

Changes in the Net Pension (Asset)/Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension (Asset)/Liability (a) - (b)
Balance at December 31, 2019	\$ 168,194,184	\$ 167,755,102	\$ 439,082
Changes for the year:			
Service cost	5,110,419	-	5,110,419
Interest (on the total pension liability)	11,314,548	-	11,314,548
Benefit payments	(6,252,909)	(6,252,909)	-
Contributions - employer	-	5,745,254	(5,745,254)
Net investment income	-	25,238,831	(25,238,831)
Administrative expense		(83,295)	83,295
Net change	10,172,058	24,647,881	(14,475,823)
Balance at December 31, 2020	\$ 178,366,242	\$ 192,402,983	\$ (14,036,741)

Sensitivity of the Net Pension (Asset)/Liability to Changes in the Discount Rate

The following presents the NPL of the City, as well as, what the City's NPL would be if it were calculated using a discount rate of 1-percentage point lower and 1-percentage point higher than the current discount rate.

		Curr	ent Single Rate		
19	% Decrease	4	Assumption	1	% Increase
5.75%			6.75%		7.75%
\$	12,155,890	\$	(14,036,741)	\$	(35,495,963)

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended September 30, 2021, the City recognized pension expense of \$2,405,078.

At September 30, 2021, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference in expected and actual experience Difference in assumption changes Difference in projected and actual investment earnings Employer contributions subsequent	\$	227,367 7,685,293 -	\$	(1,793,965) - (16,907,300)
to the measurement date		4,808,150		
	\$	12,720,810	\$	(18,701,265)

Deferred outflows of resources of \$4,808,150 related to employer contributions subsequent to the measurement date will be recognized as a reduction of the NPL for fiscal year 2022. Other amounts reported as deferred outflows and inflows of resources will be recognized in pension expense in the following fiscal years:

2022	\$ (3,354,374)
2023	(898,768)
2024	(5,363,005)
2025	(1,809,996)
2026	637,538
Total	\$ (10,788,605)

C. Deferred Compensation Plan

The City offers its employees a deferred compensation plan, which is a defined-contribution benefit plan, created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with such amounts, and all income attributable to such amounts, property or rights are held in trust or under one or more annuity contracts described in Internal Revenue Code Section 401(f). Except as may otherwise be permitted or required by law, no assets or income of the plan shall be used for, or diverted to, purposes other than for the exclusive purpose of providing benefits for participants and their beneficiaries or defraying reasonable expenses of administration of the plan. Accordingly, the assets of the plan are not reported in the City's basic financial statements.

D. <u>Section 115 Post-Employment Benefits Trust</u>

Plan Description

The 115 Trust (the Plan) was established on March 1, 2008 to comply with the requirements of Governmental Accounting Standards Board Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, for the purpose of funding and providing certain benefits to its eligible retirees and dependents, such as medical, dental and vision insurance benefits. It is a single-employer, defined benefit OPEB plan.

The 115 Trust was created by the City of Plano, Texas (the City) ordinance and is administered by the Risk Pool Trustees (the Trustees) who meet at least four times a year. The Trustees consist of five City employees, including three (3) City Deputy Managers, Director of Finance and Director of Human Resources, who are appointed by the City through the City Manager pursuant to the City of Plano Welfare Benefit Plan. The Trustees oversee the Plan and set policies for operations, including appointing management and directing investment decisions. Professional investment management and an investment consultant are used and a custodial bank retains the assets. Pursuant to Section 6.01 of the Welfare Benefit Plan and Resolution 2007-9-2(R), City Council has set forth delegation to the City Manager, or his designee, the authority to amend each Plan in any and all respects, except for any amendment that would materially increase the costs of the Plan to the City.

The 115 Trust issues a separate publicly available financial report that includes financial statements and required supplementary information at the 115 Trust's fiscal year-end which is December 31. Those financial reports may be obtained by request to the City's Human Resources Department, 1520 Avenue K, Suite 130, Plano, Texas 75074.

Benefits Provided

The City offers its retired employees and their dependents under age 65 health insurance coverage under the same plan as the active employees and Medicare supplementary insurance for retirees 65 and older. The number of retired participants receiving health insurance coverage for 2020 was 522 of which 260 were on the same plan as the active employees and 262 on Medicare supplementary insurance. Premiums are paid by the retired employees and claims are processed by the City's agent and paid through the Health Claims Fund. Expenditures for postretirement healthcare benefits are recognized as retirees' report claims. Claims paid for retired employees for 2021 were \$4,305,108.

As of December 31, 2020, the following were covered by the benefit terms:

Retirees and dependents currently receiving benefits	384
Terminated members entitled to benefits, but not yet receiving them	149
Active members	2,236
	2,769

Contributions and Funding Policy

The City has the authority to establish and amend the Plan contributions. The City transfers retiree and City contributions to the 115 Trust on a monthly basis. Contributions by the City are established as part of the City budget process and are based on amounts determined in the actuarial study prepared biennially. Retirees and their dependents currently receiving benefits are required to contribute specified amounts monthly toward the cost of health insurance premiums. Monthly retiree premiums contributed to the Plan are based on the benefit election of the Plan member and are as follows:

	M	Medical Plan		ental Plan	V	ision Plan
Retiree only	\$	538.00	\$	45.00	\$	8.54
Retiree and spouse		1,392.00		88.00		13.66
Retiree and children		994.00		108.00		13.97
Retiree and family		2,006.00		164.00		22.48
Spouse only		854.00		45.00		8.54
Children only		456.00		63.00		8.54
Spouse and children only		1,468.00		119.00		13.94

Net OPEB Liability

The City's net OPEB liability was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of October 1, 2019.

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of October 1, 2019.

As of December 31, 2019:

Actuarial cost method: Entry Age Normal
Amortization method: Level percent, Closed

Remaining amortization period: 16 years, as of the valuation date

Amortization growth rate: 2.75%
Asset valuation method: Fair Value
Inflation: 2.50%
Salary increases: 2.75%
Discount rate: 6.75%

Healthcare cost trend rates: 4.00% for 2019, rising and then eventually decreasing to an ultimate rate of 4.00%

for 2073 and beyond.

Dental cost trend rates: 4.74% for 2019, gradually decreasing to an ultimate rate of 3.92% for 2075 and beyond.

Retirement: Experience-based table of rates that are specific to the type of eligibility condition.

Mortality:

Active participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 0.545 (male) or 0.52 (female) and projected fully generationally using

Scale BB.

Retired participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 1.09 (male) or 1.03 (female) and projected fully generationally using

Scale BB.

Disabled participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 1.09 (male) or 1.03 (female) and projected fully generationally using

Scale BB, with a minimum 3% mortality rate.

Rate of Return

The long-term rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of December 31, 2020.

			Long-Term Expected	Long-Term Expected		
			Arithemetic Real Rate	Geometric Real Rate		
Asset Classification	Index	Target Allocation	of Return	of Return		
Asset Classification	IIIUGX	Target Allocation	Of Return	Of Return

	Portfolio	Real Mean Return	3.34%	2.74%		
	D. M. P. M.	de d'Albert Determ	5.050/	5 040/		
	Portfolio Non	ninai Mean Return	5.85%	5.31%		
	Portfolio S	10.86%				
	Portiono S	nandard Deviation	10.00%			
	Long-Term Expect	ted Rate of Return	6.75%			
Trivate real estate property	Assumed Inflation - S Portfolio Portfolio Non Portfolio S	Assumed Inflation - Mean Assumed Inflation - Standard Deviation Portfolio Real Mean Return Portfolio Nominal Mean Return Portfolio Standard Deviation				

Discount Rate

A single discount rate of 6.75% was used to measure the total OPEB liability. Based on the stated assumptions and the projection of cash flows as of each Plan year, the OPEB plan's fiduciary net position and future contributions were sufficient to finance all the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of the projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
\$ 114,404,747	\$ 102,077,256	\$ 12,327,491

OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended September 30, 2021, the City recognized OPEB income of \$480,485. At September 30, 2021, the City reported deferred outflows and inflows of resources related to OPEB from the following resources:

	erred Outflows Resources	Deferred Inflows of Resources		
Difference in expected and actual experience Difference in assumption changes Difference in projected and actual investment earnings Employer contributions subsequent	\$ 5,101,768 - -	\$	(999,392) (9,537,479) (10,556,290)	
to the measurement date	3,264,793			
	\$ 8,366,561	\$	(21,093,161)	

Deferred outflows of resources of \$3,264,793 related to employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for fiscal year 2022. Other amounts reported as deferred outflows and inflows of resources will be recognized in OPEB expense in the following fiscal years:

2022	\$	(4,706,879)
2023		(3,461,718)
2024		(5,439,388)
2025		(2,622,629)
2026		(268,272)
Thereafter		507,493
Total	\$ (15,991,393)

6. CUSTODIAL UNITS:

To develop and revitalize the Collin Creek Mall area, the developer plans include 400,000 square feet of retail space, as well as, an assortment of restaurants and entertainment destinations. The creation of the PID and TIRZ units will be the vehicles to facilitate these funds held in trust. The following entities are accounted for as custodial units.

As part of the Collin Creek Mall Redevelopment Project, the developer plans to develop 99-acres of real property and the TIRZ No. 4 revenue stream from the assessment will be used for projects benefiting the zone. On August 9, 2021, City Council approved an agreement to consider the sale of the TIRZ No. 4 increment generated from the project's 99-acres. On September 13, 2021, the TIRZ No. 4 assignment of the 99-acres' increment was approved via a purchase and sale between the City and ORIX Public Finance, LLC in the amount of \$38,500,000.

The Collin Creek East PID was created on January 13, 2020, which boundaries were expanded on February 8, 2021. The Collin Creek West PID was approved on February 8, 2021. The Collin Creek East and West PIDs contain approximately 60 acres and 39 acres, respectively. The funding of this development is through PID bonds, developer cash contributions, TIRZ revenue stream and land acquisition by the City, all of which will reside in a trust. The City authorized the issuance of PID bonds to construct, reimburse or acquire the public improvements within the districts, including a garage. The amount of Collin Creek East and West PID bonds issued are \$32,761,000 and \$14,687,000, respectively.

These bonds are issued by the City pursuant to the Public Improvements District Assessment Act, Subchapter A of Chapter 372, Texas Local Government Code, an ordinance adopted by the City on August 23, 2021, and an Indenture of Trust, dated as of September 1, 2021, by and between the City and the Trustee.

Proceeds of the bonds will be used to provide funds for (i) paying a portion of the actual costs of the PID improvements in the Collin Creek East and West districts, (ii) paying interest on the bonds during and after the period of acquisition and construction of the public improvements, (iii) funding the reserve account of the reserve fund, (iv) paying district formation costs and (v) paying bond issuance costs.

The bonds are special obligations of the City payable solely from the pledged revenues and other funds comprising the trust estate, as and to the extent provided in the indenture. The bonds do not give rise to a charge against the general credit or taxing power of the City and are payable solely from the sources identified in the indenture.

	Interest Rate (%)	Issue Date	Maturity Date	Original Issue	Net Retirement	Outstanding
2021 Collin Creek East PID	4.375	9/1/2021	12/31/2051	\$ 32,761,000	\$ -	\$ 32,761,000
2021 Collin Creek West PID	4.000	9/1/2021	12/31/2051	14,687,000	-	14,687,000
				\$ 47,448,000	\$ -	\$ 47,448,000

The difference in the bond holder liability of the custodial funds, reported in the basic financial statements compared to the table above, is attributed to the underwriter's discount for the PID East and PID West bonds of \$982,830 and \$440,610, respectively. The PID West bonds were also issued at a premium of \$181,384.

7. LONG-TERM DEBT:

A summary of long-term debt transactions, including current portion, for the year ended September 30, 2021, is as follows (in thousands of dollars):

	Ве	alance, eginning of Year	In	Increase Decrease		Balance, End of Year	Due Withii One Year		
Governmental Activities:

benefits liability		1,697	-		(794)		903		
Business-type Activities									
Long-term debt	\$	69,622	\$ 58,304	\$	(11,215)	\$	116,711	\$	6,039

The compensated absences liability attributable to the governmental activities will be liquidated by several of the City's governmental and internal service funds. Approximately 98.8% has been paid by the General Fund, 0.6% by special revenue funds and 0.6% by internal service funds.

Pension and OPEB liabilities for governmental-type funds are recorded at the government-wide statement level and are primarily liquidated in the General Fund. Liabilities for the proprietary type activities are recorded and liquidated in the fund that incurs the liability.

The liability for insurance claims will be liquidated through a variety of funds. The General Fund bears approximately 80.6% of the claims and judgments liability. The enterprise funds bear approximately 14.8% of the claims and judgment liability, while the internal service and special revenue funds bear approximately 4.5% and 0.1%, respectively.

Long-term debt at September 30, 2021 includes the following individual issues (not including the unamortized premium of \$37,548,273 and the unamortized deferred charge on refunding of \$1,910,484 of the General Obligation bonds, the unamortized premium of \$4,377,818 and unamortized deferred charges of \$138,012 of the Municipal Drainage Revenue bonds and the unamortized premium of \$5,818,138 of the Water and Sewer Revenue bonds).

The City intends to retire all of its general long-term liabilities, plus interest, from ad valorem taxes and other current revenues. The proprietary fund type long-term debt will be repaid, plus interest, from the operating revenues of the Water and Sewer Fund and the Municipal Drainage Fund.

A. General Obligation Bonds and Certificates

The City is required by ordinance to create from ad valorem tax revenues a sinking fund sufficient to pay the current interest and principal installments as they become due. The Debt Service Fund has \$7,352,771 available to service the general obligation debt after all debt due in the current fiscal year has been paid.

There are a number of limitations and restrictions contained in the various General Obligation bonds and certificate indentures. Management of the City believes it is in compliance with the significant limitations and restrictions at September 30, 2021.

In June 2021, the City issued \$74,085,000 in General Obligation Refunding and Improvements bonds, with interest rates ranging from 2.0% to 5.0%. The portion of the debt that represents refunded bonds was Series 2011 General Obligation bonds totaling \$13,110,000 and carried interest rates ranging from 2.0% to 5.0% with maturity dates of 2022 through 2032. As a result of the refunding, the City obtained an economic gain (difference between present value of the debt service payments on the old and new debt) of \$2,154,981.

B. <u>Water and Sewer Revenue Bonds</u>

The Water and Sewer Revenue bonds are secured by the net revenues of the Water and Sewer Fund as defined in the respective bond indentures.

The bond indenture requires the City to make equal monthly installments to a debt service fund to pay principal and interest requirements as they become due. At September 30, 2021, \$888,060 is in restricted net position of the Water and Sewer Fund for debt service requirements.

A reserve fund is not required so long as the net revenues equal or exceed 150% of the annual debt service requirements due and payable in the fiscal year.

In June 2021, the City issued \$10,605,000 in Water and Sewer Revenue bonds, with interest rates ranging from 4.0% to 5.0%.

Restricted assets of the Water and Sewer Fund at September 30, 2021 are as follows:

Cash and cash equivalents	\$ 1,611,201
Investments	9,087,634
Accrued interest receivable	 53,406
	\$ 10,752,241

C. Municipal Drainage Revenue Bonds

These bonds are secured by a first lien on and pledge of the revenues of the Municipal Drainage Fund in accordance with the provisions of the bond indenture.

The bond indenture requires the City to make equal monthly installments to a debt service fund to pay principal and interest requirements as they become due. At September 30, 2021, \$3,094,875 is in restricted net position of the Municipal Drainage Fund for debt service requirements.

In addition, the bond indenture requires a reserve equal to the average annual debt services requirement be maintained in order to pay any bond principal and interest should the debt service funds be insufficient. At September 30, 2021, the reserve required and in restricted net position of the Municipal Drainage Fund is \$2,066,522.

In June 2021, the City issued \$40,590,000 in Municipal Drainage refunding and improvement bonds, with interest rates ranging from 2.0% to 5.0%. The portion of the debt that represents refunded bonds was Series 2010 Municipal Drainage Revenue bonds totaling \$2,545,000 and carried interest rates ranging from 4.0% to 4.25% with maturity dates in 2022 through 2030. As a result of the refunding, the City obtained an economic gain (difference between present value of the debt service payments on the old and new debt) of \$321,806.

Restricted assets of the Municipal Drainage Fund at September 30, 2021 are as follows:

Cash and cash equivalents	\$ 6,304,024
Investments	35,556,482
Accrued interest receivable	 208,959
	\$ 42,069,465

8. INTERFUND TRANSACTIONS:

A summary of interfund receivables and payables at September 30, 2021 is as follows:

Due To Other Funds	Due From Other Funds										
		Ca	pital			Water and					
	General	Maint	enance		Grants		Sewer	Total			
General	\$ -	\$	-	\$	40,722	\$	-	\$ 40,722			
Grants	1,288,855		-		-		-	1,288,855			
Internal Service	340,492	2	50,000		-		70,000	660,492			
Nonmajor Governmental	1,464		-		398		-	1,862			
Total	\$ 1,630,811	\$ 2	50,000	\$	41,120	\$	70,000	\$ 1,991,931			

Due to and due from entries are primarily used to account for cash owed between funds that are expected to be repaid within one year or less.

The City performs a calculation to determine the value of the charges in lieu of taxes to be paid to the General Fund. This calculation is reasonably equivalent to the value of the services provided to the Water and Sewer and Sustainability and Environmental Services Funds and is, therefore, appropriately reported as an expense as opposed to a transfer. During fiscal year 2021, charges in lieu of taxes were \$12,283,397.

Transfers between funds during the year were as follows:

							Trans	fer	s In					
	Sustainability													
							and				Blended			
			Capital			Εı	nvironmental		Nonmajor	C	Component		Internal	
Transfers Out	_	General	Maintenance		Grants		Services	G	overnmental		Units		Service	Total

Blended Component Units		1,760	-		-		-		-		-		-	1,760
Nonmajor Enterprise		1,153,087	500,000		-		-		-		-		-	1,653,087
Internal Service		-	-		-		80,225		250,000		-		-	330,225
Total	\$	8,725,672	\$ 42,376,519	\$	40,722	\$	80,225	\$	250,000	\$	50,000	\$	802,456	\$ 52,325,594

The City performs a cost allocation to determine the portion of indirect expenses that will be transferred by the respective business-type activities to the General Fund. The City funds the Capital Maintenance Fund by transferring amounts from other funds each year based on a portion of depreciation.

Transfers are primarily used to move funds to finance various programs in accordance with budgetary authorizations.

9. TAX ABATEMENTS AND ECONOMIC DEVELOPMENT INCENTIVES:

The City enters into economic development agreements designed to promote development and redevelopment within the City, spur economic improvement, stimulate commercial activity, generate additional sales tax and enhance the property tax base and economic vitality of the City. These programs abate or rebate property tax revenues. The City's economic development agreements are authorized under Chapter 380 of the Texas Local Government Code and Chapter 311 (Tax Increment Financing Act) and Chapter 312 (Property Redevelopment and Tax Abatement) of the Texas Tax Code. The economic development agreements are designed to support the creation of new businesses, the expansion and retention of existing businesses within the City and the attraction of companies that offer high impact jobs

CITY OF PLANO, TEXAS NOTES TO BASIC FINANCIAL STATEMENTS (continued) SEPTEMBER 30, 2021

and share the community's values. Recipients may be eligible to receive economic assistance based on the employment, economic or community impact of the project requesting assistance. Recipients generally commit to building or remodeling real property and related infrastructure, redeveloping properties, expanding operations or bringing targeted business to the City. Agreements generally contain recapture provisions which may require repayment or termination if recipients do not meet the required provisions of the economic incentives.

The City has the following categories of economic development agreements:

- Tax Abatements The City of Plano offers tax abatement on improvements to real and business personal property as directed under Chapter 312 of the Texas Tax Code. The abatements allow the City to designate tax reinvestment zones and negotiate tax abatement agreements with applicants with underlying goals to further economic development in Plano. Real Property abatements are offered to applicants that pursue the construction of new or expanded facilities in which to house the applicable project. The abatement applies to the assessed value of the improvements made. Business Personal Property abatements are offered to applicants that pursue the purchase or long-term lease of existing facilities. The abatement applies to the assessed value of new personal property brought into the taxing jurisdiction. Property taxes abated under this program in fiscal year 2021 are \$5,481,438.
- Economic Development In 2006, a property tax increase of two-cents per \$100 valuation was approved by City Council that is dedicated to economic development. Chapter 380 of the Texas Local Government Code allows municipalities to establish and provide programs to promote state or local economic development and to stimulate business and commercial activity. The City's economic development program offers incentives to provide a competitive advantage, foster relocation, encourage employment retention or growth and/or assist in public infrastructure improvements within the City. For fiscal year 2021, the City paid incentives of \$3,809,600.
- Tax Rebates The City of Plano offers property tax rebates to real and business personal property, pursuant to Chapter 380 of the Texas Local Government Code to promote local economic development and stimulate business and commercial activity in the City. The City did not pay any tax rebates in the current year.
- Tax Increment Financing The City has TIF zones under Chapter 311 of the State of Texas Code. The City enters into economic development and infrastructure reimbursement agreements which earmark TIF revenues for payment to developers and represent obligations over the life of the TIF or until all terms of the agreements have been met. These obligations are described in section I.B. of the footnotes. Additionally, the City enters into general economic development agreements under Chapter 380 of the Texas Local Government Code which are funded with TIF resources. The City paid \$2,152,722 in TIF obligations in fiscal year 2021.

10. REGIONAL SYSTEMS FOR WATER SUPPLY, WASTEWATER TREATMENT AND SOLID WASTE DISPOSAL:

The City secures its water supply and sewer services from the North Texas Municipal Water District (District), a district authorized by the Texas Constitution, Article XVI, Section 59; created by the Texas Legislature, Article 8280-141; and authorized to act by the confirming vote of the majority of the qualified voters in each of the cities comprising the District. The District has police, taxation and eminent domain powers and is authorized to issue revenue and/or tax bonds upon approval by the Attorney General of the State of Texas and functions as a political subdivision of the State of Texas independent of the City. The District is governed by a 17-member board (the "Board"), the City being authorized by statute to appoint two of those members. The Board has full power and discretion to establish its budget and to set the rates for the services it provides by contracts with its member cities and customers. The Board is empowered by statute and contract, or otherwise permitted by law, to discontinue a facility or service in order to prevent an abuse or to enforce payment of an unpaid charge, fee or rental due to the District. Because of the

CITY OF PLANO, TEXAS NOTES TO BASIC FINANCIAL STATEMENTS (continued) SEPTEMBER 30, 2021

factors mentioned above, the District is not included in the City's basic financial statements. A portion of the outstanding bonds of the District is contract revenue bonds based on contracts with certain member cities of the District. The City provides for the payment of its contractual obligations with the District from revenues generated by its waterworks and sewer systems. Such contractual payments provide for the payment of the principal and interest requirements, and the premium payment, if any, on specified indebtedness and associated operation and maintenance expenses of the District.

Water Supply

On December 12, 1953, the City entered into a contract with the District whereby the District agreed to provide water for the benefit of the City. In return for this service, the City agreed to pay the District at a rate per 1,000-gallon basis, subject to minimum annual payments. The City's annual payment for the year ended September 30, 2021 was \$76,813,645.

Wastewater Treatment

On October 1, 1975, the City entered into a contract for wastewater treatment services with the District. The District has been designated by the Texas Water Quality Board as the regional agency to provide and develop a Regional System for Wastewater Treatment in the general area of the East Fork of the Trinity River, which includes the City and other cities located in Collin, Dallas, Kaufman and Rockwall counties. Relative thereto, the City and other cities have entered into wastewater system contracts with the District, which provide for the establishment, operation and maintenance of a regional wastewater system for the purpose of providing facilities to adequately receive, transport, treat and dispose of wastewater for the cities. In order to provide said services, the contract provides that (a) the District will acquire, design, construct and complete the system and repair, replace and/or extend the system to provide service to the cities; (b) in consideration of payments to be made under the contract, each of the cities shall have the right to discharge all its wastewater from its sewage system into the District's system, subject to certain quality requirements set forth in the contract; (c) the District will issue its bonds, in amounts and at times determined by the District, to provide for the wastewater treatment facilities; (d) each city agrees to pay its proportionate share of the annual requirement sufficient to pay or provide for the payment of an "Operation and Maintenance Component" and a "Bond Service Component;" (e) each city's proportionate share of the annual requirement shall be a percentage obtained by dividing such city's estimated contributing flow to the system by the total estimated contributing flow to the system by all cities during such fiscal year. No city will exercise oversight responsibility for the District and no city is liable for the District's debt. The City's payment for the year ended September 30, 2021 was \$36,807,029, net of payments to the City for facilities usage.

Solid Waste Disposal

On November 29, 1979, the City entered into a contract for services with the District, whereby the District agreed to provide a solid waste disposal system for the benefit of the City and other cities. Each city agreed to pay its share of an annual requirement for the operating expenses and debt service of the District to be calculated in the same manner as the wastewater contract. The City's annual payment for the year ended September 30, 2021 was \$8,242,261.

11. COMMITMENTS AND CONTINGENCIES:

The City has contractual commitments of \$78,931,280 in the capital projects funds, \$13,572,673 in the Water and Sewer Fund and \$23,794,244 in the Municipal Drainage Fund. These commitments are for construction of various projects and will be funded primarily from general obligation bond proceeds in the capital projects funds, revenue bond proceeds in the Water and Sewer Fund and revenue bond proceeds in the Municipal Drainage Fund.

Various claims and lawsuits are pending in which the City is involved. Included among the various actions are those for which the discovery process is currently underway or which have yet to proceed to trial. It is the opinion of City management that the ultimate outcome of all other lawsuits will not have a material adverse effect on the City's financial position.

The City participates in a number of federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any liability for reimbursement that may arise as the result of these audits is not believed to be material.

12. SELF-INSURANCE:

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains a self-insurance program for general liability, public officials' errors and omission, police professional liability, property loss and workers' compensation. The Risk Management Fund has been established to pay identified claims and judgments, maintain loss reserves and purchase insurance coverage as required.

Group medical benefits are paid from the Health Claims Fund, which has an annually negotiated stop loss provision. Revenues are recognized from employee payroll deductions and from City contributions.

The liabilities for insurance claims reported in each of the funds are based on GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an estimate for incurred but not reported claims. Change in each fund's claims liability amount in fiscal years 2021 and 2020 was as follows:

Fund	I	Liability, Beginning of year	g and Changes in			Claim Payments	Liability, End of year		
2021 Property/Liability Loss Health Claims	\$	5,422,171 2,627,741	\$	5,068,555 33,222,080	\$	(5,110,758) (32,929,423)	\$	5,379,968 2,920,398	
Total	\$	8,049,912	\$	38,290,635	\$	(38,040,181)	\$	8,300,366

Notes to Schedule of Contributions

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31

and become effective in January, 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method: Entry age normal

Amortization method: Level percentage of payroll, closed

Remaining amortization period: 25 years

Asset valuation method: 10 year smoothed market; 12% soft corridor

Inflation: 2.50%

Salary increases: 3.50% to 11.50% including inflation

Investment rate of return: 6.75%

Retirement age: Experience-based table of rates that are specific to the City's plan of benefits.

Last updated for the 2019 valuation pursuant to an experience study of the

period 2014-2018.

Mortality: Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates

are projected on a fully generational basis with scale UMP.

Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are

projected on a fully generational basis with scale UMP.

Other Information:

Notes There were no benefit changes during the year.

Notes to Schedule of Contributions

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31

of odd numbered years. The actuarially determined contribution rate determined

by the valuation is effective for the biennium period beginning with the

fiscal year following the valuation date.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method: Entry Age Normal

Amortization method: Level percentage of payroll, closed
Remaining amortization period: 14 years as of the measurement date
Asset valuation method: 5-year smoothed market; 20% corridor

Inflation: 2.50%

Salary increases: 8.00% to 2.75%, including inflation

Investment rate of return: 7.00%

Retirement age: Experience-based table of rates that are specific to the type of eligibility condition.

Mortality: RP-2000 mortality for combined healthy annuitants with blue-collar adjustment.

Male rates are multiplied by 1.09 and female rates are multiplied by 1.03.

Generational mortality improvements applied using Scale BB.

Contributions as a percentage of covered payroll		2.59%	2.84%	3.08%	3.42%

Note: GASB 75 requires 10 fiscal years of data. As a result of the City implementing GASB 75 in fiscal year 2018, this schedule will be built to show the remaining reporting requirement.

Notes to Schedule of Contributions

Valuation Date:

Notes The Actuarially Determined Contribution is the sum of the current year's normal cost

plus an amount necessary to amortize the unfunded liability over a closed 16-year period. Actuarial valuations have been performed biennially as of October 1. The most recent

valuation was performed as of October 1, 2019.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method: Entry age normal

Amortization method: Level percentage of payroll, closed

Remaining amortization period: 16 years
Asset valuation method: Fair value
Inflation: 2.50%
Salary increases: 2.75%
Investment rate of return: 6.75%

Healthcare cost trend rates: 4.00% for 2019, rising and then decreasing to an ultimate rate

of 4.00% for 2073 and beyond

Dental cost trend rates: 4.74% for 2017, gradually decreasing to an ultimate rate of

3.92% for 2075 and beyond

Mortality:

Active participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 0.545 (male) or 0.52 (female) and projected fully generationally using

Scale BB.

Retired participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 1.09 (male) or 1.03 (female) and projected fully generationally using

Scale BB.

Disabled participants Sex Distinct RP 2000 Combined Healthy Mortality Table with Blue Collar adjustment with

rates multiplied by 1.09 (male) or 1.03 (female) and projected fully generationally using

Scale BB, with a minimum 3% mortality rate.

COMBINING FINANCIAL STATEMENTS

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2021 CITY OF PLANO, TEXAS

ANNUAL COMPREHENSIVE FINANCIAL REPORT 2021

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

CRIMINAL INVESTIGATION FUND – to account for any monies taken into police custody as a result of police investigation. These monies are to be spent only on law enforcement activities as provided by state statute.

PLANO TELEVISION FUND – to account for monies received for local access programming, under conditions contained within the franchise agreement with AT&T Broadband.

PUBLIC SAFETY COMMUNICATIONS FUND – to account for 9-1-1 reserve fund monies received from wireless communication fees to be used for related 9-1-1 services; and intergovernmental radio fund fees collected under an interlocal agreement for a joint communication system between the cities of Plano, Allen and Frisco, the fees are used to pay maintenance expenses of the system; and wireline fees and reporting for 9-1-1 expenditures.

MUNICIPAL COURT FUND – to account for building security fund monies received from conviction of misdemeanor fees to be used to provide for the security and housing of municipal courts; teen court fees collected from teens requesting teen court, these monies are used to cover the costs of administering teen court; municipal court technology state fees collected with each citation that has resulted from a conviction; judicial efficiency state fees collected for payment on any part of a judgment on or after the 31st date on which a judgment is entered where one-half is remitted to the state, four-tenths is retained locally with no restriction, while one-tenth is used for the purpose of improving judicial efficiency; juvenile case managers supervise youth under 17 years of age who have been charged with a crime, fees received are used to fund a portion of the juvenile case manager position; traffic safety fees collected in relation to motor vehicle code violations which are used for public safety purposes; child safety fees collected from \$1 for each registered vehicle, these fees are used to fund the school crossing guard program and other child safety related programs.

MEMORIAL LIBRARY FUND – to account for monies received in support of the City's library.

SEIZED ASSETS FUND – to account for the seizure and disposition of assets confiscated by local law enforcement agencies.

DONATIONS FUND – to account for donations related to various programs within the City.

COMMUNITY PARAMEDIC PROGRAM FUND – to account for donations from local hospitals to increase the overall well-being of patients recently discharged from the hospital enabling paramedics to better assist Plano residents who frequently use the 9-1-1 system.

BLENDED COMPONENT UNITS:

DOWNTOWN PLANO PUBLIC IMPROVEMENT DISTRICT – organized to provide additional improvements and services in Downtown Plano where funding is derived from a special assessment paid by downtown property owners and based on a property's taxable value.

PLANO IMPROVEMENT CORPORATION – organized as a legally separate, nonprofit entity that serves the citizens of the City by facilitating real estate transactions and serve as an independent foundation for acceptance of donations.

COLLIN CREEK PUBLIC IMPROVEMENT DISTRICT – organized to provide improvements to the Collin Creek area.

CAPITAL PROJECTS FUNDS:

The capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other government.

The City's nonmajor capital projects funds are as follows:

PUBLIC INFRASTRUCTURE FUND – to account for improvements to City of Plano owned infrastructure related to existing commercial facilities, including streets, utilities, open space and other infrastructure.

PARK SERVICES FUND – to account for building permit fees exclusively for the acquisition and development of new neighborhoods and parks.

NONMAJOR ENTERPRISE FUNDS

Following are the nonmajor enterprise funds:

CONVENTION AND TOURISM FUND – to account for the convention and tourism activities of the City's Plano Event Center and Visit Plano operations.

MUNICIPAL GOLF COURSE FUND – to account for operation of the City's golf course, including administration, operation and maintenance. All costs are financed through fees charged to patrons.

DOWNTOWN CENTER DEVELOPMENT FUND – to account for improvements and activities in support of the City's downtown area.

RECREATION REVOLVING FUND – to account for recreational programs and activities that are offered to groups and individuals on a fee basis. Fees are adjusted periodically to cover the cost of providing each program.

INTERNAL SERVICE FUNDS

Internal service funds account for the financing of goods or services provided by one department for another.

The City has five internal service funds as follows:

EQUIPMENT MAINTENANCE FUND – to account for the cost of operating and maintaining automotive and other equipment used by City departments. Service charges are billed to departments on a monthly basis to cover all expenses of the fund, including depreciation of furniture and fixtures, machinery and equipment necessary to provide maintenance services and for replacement of the fleet.

MUNICIPAL WAREHOUSE FUND – to account for the operation of a central warehouse facility, which provides the capability of storing and distributing in volume supplies and materials used by City departments. An overhead charge is applied to the purchase price of all materials handled to cover the operating costs, including the cost of goods sold.

TECHNOLOGY SERVICES FUND – to account for the data processing and information systems. Charges for software, hardware and maintenance of the systems are billed to the user funds.

RISK MANAGEMENT FUND – to account for the operation of a self-insurance program for general liability, public officials' errors and omission, police professional liability, property loss and worker's compensation.

HEALTH CLAIMS FUND – to account for the self-insurance operation of group accident and health insurance coverage for all City employees. In addition to the basic insurance coverage provided, employees may purchase dependent coverage through payroll deductions. Coverage is financed by billings to the departments and through employee payroll deductions.

STATISTICAL SECTION

FOR FISCAL YEAR ENDED SEPTEMBER 30, 2021 CITY OF PLANO, TEXAS

ANNUAL COMPREHENSIVE FINANCIAL REPORT 2021

STATISTICAL SECTION TABLE OF CONTENTS (unaudited)

Tables in the statistical section present detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the overall financial health of the City.

	<u>Pages</u>
<u>Financial Trends</u> - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	136-141
Revenue Capacity - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	142-145
<u>Debt Capacity</u> - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	146-151
<u>Demographic and Economic Information</u> - These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	152-153
Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	154-158

Total direct and overlapping bonded debt	\$ 4,852,298,721		\$ 1,703,917,728
Ratio of overlapping bonded debt to taxable assessed valuation (valued at 100% of market value)			3.67%
Per capita overlapping bonded debt			\$ 5,914

Sources: For net bonded debt, representatives (business manager or finance officer) of the taxing jurisdictions. For percentage of debt applicable to City, the Municipal Advisory Council of Texas.

As a home rule city, the City of Plano is not limited by the law in the amount of debt it may issue. The City's Charter (Section 9.18) states:

The City Council shall have the power under the provisions of the state law to levy, assess and collect an annual tax upon real and personal property within the City to the maximum provided by the Constitution and the general laws of the State of Texas. The City Council shall also have the power to levy occupation taxes on such occupations as consistent with the general laws of the State of Texas.

Article II, Section 5 of the State of Texas Constitution states in part:

...but no tax for any purpose shall ever be lawful for any one year, which shall exceed two and one-half percent of the taxable property of such city.

The tax rate at October 1, 2020 is \$0.4482 per \$100.00 with assessed valuation at 100% of market value.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Mayor and Members of the City Council of the City of Plano, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Plano, Texas (the City) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated January 6, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Honorable Mayor and Members of the City Council of the City of Plano, Texas

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WEAVER AND IIDWELL, L.L.P.

Dallas, Texas January 6, 2022

Independent Auditor's Report on Compliance for Each Major
Federal and State Program, Report on Internal Control over Compliance,
and Report on Schedule of Expenditures of Federal
and State Awards Required by the Uniform Guidance and the
State of Texas Uniform Grant Management Standards

To the Honorable Mayor and Members of the City Council of the City of Plano, Texas

Report on Compliance for Each Major Federal and State Program

We have audited the City of Plano, Texas (the City) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement and the State of Texas Uniform Grant Management Standards that could have a direct and material effect on each of the City's major federal and state programs for the year ended September 30, 2021. The City's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and the State of Texas Uniform Grant Management Standards (UGMS) issued by the Texas Governor's Office of Budget and Planning. Those standards and the Uniform Guidance and UGMS require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended September 30, 2021.

The Honorable Mayor and Members of the City Council of the City of Plano, Texas

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with Uniform Guidance and UGMS, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and UGMS. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal and State Awards Required by the Uniform Guidance and the State of Texas *Uniform Grant Management Standards*

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic statements. We issued our report thereon dated January 6, 2022, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by the Uniform Guidance and UGMS and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

The Honorable Mayor and Members of the City Council of the City of Plano, Texas

In our opinion, the schedule of expenditures of federal and state awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Notes to the Schedule of Expenditures of Federal and State Awards

Note 1. General

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the City of Plano, Texas (the City) and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Uniform Guidance and UGMS. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The City's reporting entity is defined in Note 1 to the City's basic financial statements. Federal and state awards received directly from federal and state agencies as well as federal and state awards passed through other government agencies are included on the schedule.

Note 2. Loans

At September 30, 2021, the amount of loans outstanding related to the Community Development Block Grants and HOME Investment Partnerships Program was approximately \$734,071 and \$131,732, respectively.

Note 3. Indirect Cost Rate

The City has elected not to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.
