TASK 1 – Procurement of New Vehicles/Equipment

PERFORMING PARTY must have operated the vehicles/equipment to be replaced primarily within the ten-county Dallas-Fort Worth ozone nonattainment area, which is described under Task 3. The new vehicles/equipment must be in service by January 31, 2024, and the new vehicle must be electric zero tailpipe emission. Grant funding cannot exceed:

- 45 percent of the incremental cost of the new vehicle/equipment if powered by an electric motor or electric power source.

The replacement (new) vehicle/equipment must perform the same function and have a similar gross vehicle weight rating as the vehicle/equipment being replaced. For equipment, horsepower increases of more than 40 percent will require specific approval by EPA prior to purchase and Performing Party may be required to pay the additional costs associated with the higher horsepower equipment. For onroad vehicles, the replacement vehicle must not be in a larger weight class than the existing vehicle (Class 5, 6, 7 or 8). Any exceptions will require specific EPA approval prior to purchase.

TASK 2 – Destroy or Render Permanently Inoperable Old Engines and Vehicles/Equipment

PERFORMING PARTY must scrap the old vehicle/equipment and/or engines and dispose of them in an environmentally responsible manner in accordance with local disposal laws. Scrappage is defined as a permanently disabling the engine and/or vehicle/equipment so it is no longer suitable for use. Vehicles/Equipment being replaced must be scrapped before reimbursement for the new vehicle/equipment will be issued. This includes drilling a three-inch by three-inch hole in the engine block, cutting completely through the frame/rails of the chassis on each side of the vehicle/equipment at a point located between the front and rear axles, and recycling salvageable materials by sending retired asset to a scrappage facility. Scrappage facilities must be current on all applicable permits required by the Texas Commission on Environmental Quality (TCEQ). While NCTCOG does not endorse nor recommend any particular facilities, the Texas Department of Motor Vehicles and TCEQ maintain a list of salvage dealer facilities. This list may be a useful reference for locating facilities who can ensure compliance with this rebate program's requirements.

A list of salvage yards is located at:

<https://txdmv.force.com/dealers/salvagedealeragentstaging>

<https://www.tceq.texas.gov/airquality/mobilesource/vim/dismantlers.html>

Alternative disabling methods and associated documentation must be approved by NCTCOG in advance on a case-by-case basis.

PERFORMING PARTY must apply for a non-repairable vehicle title in advance of completing disposition.

NCTCOG requires that project documentation be submitted for review before proceeding with disposition of vehicle(s)/equipment. NCTCOG will notify **PERFORMING PARTY** of approval of the submitted project documentation, and if disposition should proceed. **PERFORMING PARTY** must proceed with destruction of each old vehicle/equipment within 45 days of receiving preliminary reimbursement approval from NCTCOG. NCTCOG staff must be present to witness the destruction. Thus, **PERFORMING PARTY** must schedule the destruction in consultation with NCTCOG to ensure staff attendance, and NCTCOG will take the required photos of the disabled engine/chassis and verify the completed Vehicle/Equipment and Engine Disposition Form(s). Documentation of disposition, including before and after photographs, will be required for reimbursement. All forms are available through www.nctcog.org/aqfunding/forms under "Reimbursement Forms".

TASK 3 – Operation

PERFORMING PARTY will own and operate each grant-funded vehicle/equipment acquired under Task 1 for five years from the date placed into service. **PERFORMING PARTY** will ensure each grant-funded vehicle/equipment operates 51 percent or more of its time within the Dallas-Fort Worth (DFW) Nonattainment Area, which includes the area below.

Area	Counties Included
Dallas-Fort Worth Nonattainment Area	Collin, Dallas, Denton, Ellis, Johnson, Kaufman, Parker, Rockwall, Tarrant and Wise

PERFORMING PARTY must notify NCTCOG of changes in the following for the duration of the five-year operation requirement: termination of use, change in use or location, sale, transfer, or accidental

or intentional destruction of rebate-funded equipment/engines. Vehicles/Equipment may not be sold, scrapped or otherwise disposed of until written approval is received from NCTCOG.

TASK 4 – Reimbursement and Reporting

PERFORMING PARTY will complete all reporting and reimbursement requirements as set forth in the grant Agreement and Scope. Specific reporting requirements and their frequencies are detailed below.

Project Status Report

A Project Status Report detailing progress toward project completion must be submitted on a monthly basis until final reimbursement is issued. A template form is available at www.nctcog.org/aqfunding/forms under “Important Documents”.

Request for Reimbursement

With each Request for Reimbursement, **PERFORMING PARTY** must submit supporting documentation to demonstrate fulfillment of project requirements and provide adequate technical detail for NCTCOG to maintain required asset inventories and calculate air quality benefits. A checklist of required documentation is available at www.nctcog.org/aqfunding/forms.

Documentation required to receive reimbursement must include any revenue received from vehicle/equipment destruction (e.g., auction value of scrap metal). If not reporting scrap value at the time of reimbursement, **PERFORMING PARTY** must retain scrapped equipment for internal use.

The final Request for Reimbursement is due to NCTCOG no later than January 31, 2024.

Annual Report

An annual report must be submitted each year. Required reporting may include, but is not limited to, documentation of hours/mileage, location/area of operation and condition. Reporting will be completed online through the NCTCOG web site www.nctcog.org/aqfunding under “Usage Reporting”, or through another format determined by NCTCOG. If appropriate, a username and password will be provided prior to the end of the first reporting period.

APPENDIX B

LOWER TIER PARTICIPANT DEBARMENT CERTIFICATION

**APPENDIX B
CERTIFICATION REQUIREMENTS FOR RECIPIENTS OF GRANTS
AND COOPERATIVE AGREEMENTS REGARDING
DEBARMENT AND SUSPENSIONS**

Department of Transportation (DOT) Circular 2015.1 excludes entities and individuals that the federal government has either debarred or suspended from obtaining federal assistance funds through grants, cooperative agreements, or third-party contracts. The North Central Texas Council of Governments (NCTCOG) has elected to include the requirements of the DOT Circular 2015.1 in all third-party contracts for federal funds. A certification process has been established by 49 CFR 29 as a means to ensure that debarred, suspended, or voluntarily excluded persons do not participate in a federally assisted project. The inability of a person to provide the required certification will not necessarily result in a denial of participation in a covered transaction. A person that is unable to provide a positive certification as set forth in the Circular may submit a complete explanation attached to the certification. DOT will consider the certification and any accompanying explanation in determining whether or not to provide assistance for the project. **Failure to furnish a certification or any explanation may disqualify that person from participating in the project.**

Each potential third-party contractor, subcontractor under a third-party contract, subgrantee, or subrecipient must provide to the grantee or recipient of a cooperative agreement, as appropriate, a certification for a lower-tier participant. In general, lower-level employees or procurements of less than \$25,000 will not be covered by the certification process procedures, except in the case of procurements with individuals that would have a critical influence on or substantive control over the project; nevertheless, a participant is not authorized to involve a lower-level employee or enter into a contract of less than \$25,000 with a person actually known by the participant to be debarred, suspended or voluntarily excluded.

NCTCOG requires each potential contractor subgrantee, or subrecipient for a third-party contract to complete the certification in Appendix B.1 for itself and its principals.

If an applicant for a grant or cooperative agreement or a potential contractor for a third-party contract knowingly enters into a lower-tier covered transaction such as a third-party contract or subcontract under a major third-party contract or subgrant with a person that is suspended, debarred, ineligible, or voluntarily excluded from participation in the project, in addition to other remedies available to the federal government, DOT may terminate the grant or subcontract, the underlying grant or cooperative agreement for cause or default.

CERTIFICATION INFORMATION

This certification is to be used by contractors pursuant to 49 CFR 29 when any of the following occur:

- any transaction between the contractor and a person (other than a procurement contract for goods and services), regardless of type, under a primary covered transaction
- any procurement contract for goods or services when the estimated cost is \$25,000 or more
- any procurement contract for goods or services between the contractor and a person, regardless of the amount, under which the person will have a critical influence on or substantive control over that covered transaction. Such persons include principal investigators and providers of federally required audit services.

A *procurement* transaction is the process of acquiring goods and services.

A *nonprocurement* transaction is the granting of financial assistance to entities to assist the grantor in meeting objectives that are mutually beneficial to the grantee and grantor.

A COPY OF THIS CERTIFICATION IS TO BE FURNISHED TO AUTHORIZED REPRESENTATIVES OF THE STATE OR THE UNITED STATES DEPARTMENT OF TRANSPORTATION UPON REQUEST.
