AGENDAITEM: Award of a bid in the amount of \$212,275 for Archgate Park Erosion Control,

Project No. PKR-D-7334.

RECOMMENDED

ACTION: Award/Rejection of Bid/Proposal

#### **ITEM SUMMARY**

RFB No. 2023-0584-B for Archgate Park Erosion Control, Project No. PKR-D-7334, for the Parks and Recreation Department to Stoic Civil Construction, Inc. in the amount of \$212,275; and authorizing the City Manager to execute all necessary documents. **Approved** 

#### **BACKGROUND**

The Parks and Recreation Department opened bids on March 7, 2024 for the Archgate Park Erosion Control Project No. PKR-D-7334. The project will address erosion along the creek threatening adjacent park infrastructure including the park trail and parking lot. Site construction activities consist of grading and the installation of gabion mattresses to stabilize and secure eroding creek banks and park infrastructure against future damage.

The lowest responsive and responsible bid was submitted by Stoic Civil Construction, Inc., in the amount of \$212,275. There were a total of 1,102 vendors notified of this project. Six complete bids were received for the project as shown in the attached bid recap.

The benefit of this project is the stabilized creek bank and protected park infrastructure. Failure to approve this item will result in continued creek bank erosion and damage to park infrastructure.

#### FINANCIAL SUMMARY/STRATEGIC GOALS

Funding for this item is available in the 2023-24 Municipal Drainage CIP. Construction services for the Archgate Park Erosion Control project, in the total amount of \$212,275, will leave a balance of \$15,383 for future expenditures.

Approval of this item will support the City's Strategic Plan Critical Success Factor of being an Excellent, Innovative, and Accountable City Government.

**DIRECTOR:** B. Caleb Thornhill, P.E., Director of Engineering

AGENDAITEM: Award a bid in the amount of \$510,766 for 2024-0298-B for Building No. 18 Fire

Station #4, 2023 Renovations, Project No. FAC-F-7617.

**RECOMMENDED** 

ACTION: Award/Rejection of Bid/Proposal

#### **ITEM SUMMARY**

RFB No. 2024-0298-B for Building No. 18 Fire Station No. 4, 2023 Renovations, Project No. FAC-F-7617, for the Engineering Department to Concord Commercial Services, Inc. in the amount of \$510,766; and authorizing the City Manager to execute all necessary documents. **Approved** 

#### **BACKGROUND**

The Engineering Department opened bids on April 11, 2024 for the Building No. 18 Fire Station #4 Renovations, Project No. FAC-F-7617. The project includes all labor equipment, materials and supervision as required by the specifications and drawings. This renovation is to replace the kitchen cabinets, replace flooring throughout, repaint the inside of the station, as well as remodel and update the restrooms to meet current accessibility standards.

The lowest responsive and responsible bid was submitted by Concord Commercial Services, Inc., in the amount of \$470,251 plus additional alternates 1, 2 and 3 totaling \$40,515, with a total award of \$510,766.

The Base bid includes replacing the cabinet doors and drawer fronts after re-finishing the frames.

Alternate 1. Replace entire lower cabinets \$11,343

Alternate 2. Replace upper cabinets with full height upper cabinets to the ceiling \$13,684

Alternate 3. Remove and replace all ceramic tile and base in the kitchen \$15,488

There were a total of 1,546 vendors notified of this project. Ten (10) complete bids were received for the project as shown in the attached bid recap.

The existing interior surfaces in the kitchen and restrooms are at the end of their life expectancy and have deteriorated as such that replacement is needed. If this purchase is not approved, the operations of this area will remain affected, and the facility will remain non-compliant with accessibility standards.

#### ITEM SUMMARY

RFB No. 2024-0237-B for Alley Reconstruction – Sunflower Lane, Sun Meadows Street, Cherrywood Lane, Sandpiper Circle, Winding Brook Drive, Oak Shores Drive, Westmoreland Drive, Project No. 7575, for the Engineering Department to Jim Bowman Construction Company, L.P. in the amount of \$1,866,670; and authorizing the City Manager to execute all necessary documents. **Approved** 

#### **BACKGROUND**

The Engineering Department opened bids on April 9, 2024 for the Alley Reconstruction - Sunflower Lane, Sun Meadows Street, Cherrywood Lane, Sandpiper Circle, Winding Brook Drive, Oak Shores Drive, Westmoreland Drive project. The project includes the replacement of approximately 6,130 linear feet of existing alley at the following locations: Sunflower Alley, Sun Meadows Alley, Cherrywood Alley, Sandpiper Alley, Winding Brook Alley, Oak Shores Alley, and Westmoreland Alley.

The lowest responsive and responsible bid was submitted by Jim Bowman Construction Company, L.P., in the amount of \$1,866,670. There were a total of 1,376 vendors notified of this project. Six complete bids were received for the project as shown in the attached bid recap.

If this project is not awarded, several adverse consequences will ensue: increased ongoing localized maintenance and costs, intermittent alley service interruptions, and a reduction in quality of life for local residents.

#### FINANCIAL SUMMARY/STRATEGIC GOALS

Funding for this item is available in the 2023-24 Street Improvements CIP and is planned for future years, as well. Construction services for the Alley Reconstruction - Sunflower Lane, Sun Meadows Street, Cherrywood Lane, Sandpiper Circle, Winding Brook Drive, Oak Shores Drive, Westmoreland Drive project, in the total estimated amount of \$1,866,670, will leave a current year balance of \$106,516 for future expenditures.

Approval of this item will support the City's Strategic Plan Critical Success Factor of being an Excellent, Innovative, and Accountable City Government.

To approve the first contract modification for Permitting, Licensing, Inspections, and AGENDA ITEM:

Code Enforcement Software Solution (Development Services Software Solution)

**RECOMMENDED** Approval of Contract Modification

#### **ITEM SUMMARY**

To approve an increase to the current awarded contract amount of \$3,625,892 by \$111,090 to extend the schedule by nine (9) weeks for a total contract amount of \$3,736,982 from Unisys Corporation and to approve a decrease in the amount of \$118,800 to the current awarded contract amount of \$1,430,537 to waive the 2024 renewal fee of Avolve Software for a total contract amount of \$1,311,737, resulting in a net decrease of \$7,710 resulting in a revised contract total of \$10,672,261 from \$10,679,971 for the Development Services Software System for Technology Solutions; and authorizing the City Manager to execute all necessary documents. (Contract No. 2022-0373-BR; Modification No. 1) Approved

#### PREVIOUS ACTION/PRESENTATION

Previously approved by Council on June 26, 2023, the purchase of Development Services Software Solution from Unisys Corporation, Clariti Cloud, Inc., and Avolve Software was projected to incur a total contract amount of \$10,679,971.

#### **BACKGROUND**

The plan to implement ProjectDox initially as a standalone product proved problematic. It was then decided to change the plan to implement ProjectDox during the project's Planning and Permitting configuration phases, consolidating its implementation within the broader project scope to better align with the business flow. This strategic decision is based on our commitment to delivering a successful solution, even in the face of challenges encountered in the initial plan. Below are the details of the cost changes:

**Reduction**: Avolve Software has agreed to waive the 2024 renewal fee, reducing expenses by \$118,800. The next renewal date will be postponed until one year after the restart of the ProjectDox configuration, which is currently slated for October 2024. This deferral will more than offset the increases expense below incurred due to the change in approach.

Increase: Extending the schedule by nine weeks necessitates an increase of \$111,090 for Unisys services. Unisys Corporation is the software implementation vendor and maintenance provider. extension is due to the replanning to incorporate ProjectDox in line with our business flow.

The combined contract amount will experience a net decrease of \$7,710, resulting in a revised contract total of \$10,672,261(from \$10,679,971).

No changes are warranted for Clariti Cloud Inc., the vendor providing the permitting, licensing, inspections, and code enforcement platform. Technology Solutions recommends approving the cost structure and implementation approach to ensure the seamless continuation of the solution implementation.

#### FINANCIAL SUMMARY/STRATEGIC GOALS

This request is to approve a contract modification to reduce the total amount of the Development Services Software Solution by \$7,710. Funding in the Technology Improvements CIP Fund totaling \$697,049 was spent in FY 2022-23, and the remaining funding for implementation is available in the Technology Improvements CIP Fund in the estimated amount of \$1,339,002 in FY 2023-24 and \$573,211 in FY 2024-25 for an estimated total of \$2,609,262.

Funding for future year maintenance and support is available in the Technology Solutions Applications Budget in the estimated amount of \$555,610 for FY 2023-24; \$849,282 for FY 2024-25; \$873,293 for FY 2025-26; \$898,007 for FY 2026-27; \$923,444 for FY 2027-28; \$949,625 for FY 2028-29; \$976,573 for FY 2029-30; \$1,004,308 for FY 2030-31; and \$1,032,857 for FY 2031-32 for a total cost of \$8,062,999. All future year expenditures will occur within council approved appropriations.

Approval of this item relates to the City of Plano's Strategic Plan Critical Success Factors of Excellent, Innovative, and Accountable City Government.

To approve the conveyance of sanitary sewer easements and temporary construction

**AGENDA ITEM:** easements to the North Texas Municipal Water District for the 121 Force Main

Project.

RECOMMENDED

ACTION: Approval of Request

#### **ITEM SUMMARY**

To approve the conveyance of sanitary sewer easements and temporary construction easements to the North Texas Municipal Water District for the 121 Force Main Project in the amount of \$606,500; and authorizing the City Manager to execute all necessary documents. **Approved** 

#### PREVIOUS ACTION/PRESENTATION

A public hearing pursuant to Chapter 26 of the Texas Parks and Wildlife Code was held at the April 8, 2024 City Council meeting regarding the North Texas Municipal Water District's (NTMWD) request for permanent and temporary easements along Legacy Trail for its upcoming 121 Force Main Improvements project. At that same meeting Resolution 2024-4-7 was adopted by the Plano City Council determining that (1) there is no feasible and prudent alternative to the use or taking of the park land and (2) the project includes all reasonable planning to minimize harm to the park land.

#### **BACKGROUND**

Concurrently with the Chapter 26 process, NTMWD and City of Plano staff members conducted negotiations regarding the compensation to be paid to the City for the 6.5 acres of permanent sanitary sewer easements and 7.1 acres of temporary construction easements required for the 121 Force Main project. Working from third party appraisals obtained by NTMWD, an amount of \$606,500 was agreed as satisfactory to both entities. The City of Plano Parks and Recreation Department will use \$425,200 for future park land acquisitions and \$181,300 to plant trees in Plano's park system to replace trees identified for removal in the upcoming project.

This item was prepared in cooperation with the Plano Parks & Recreation Department.

#### FINANCIAL SUMMARY/STRATEGIC GOALS

Approval of the conveyance of easements along Legacy Trail to the North Texas Municipal Water District for the completion of the 121 Force Main Improvements project will result in a one-time revenue of \$606,500.

Approval of this item will support the City's Strategic Plan Critical Success Factor of being an Excellent, Innovative, and Accountable City Government.

00011

RECOMMENDED Approval of Expenditure**ACTION:** 

#### **ITEM SUMMARY**

To approve an expenditure for engineering professional services for Screening Wall Replacement - Stone Lake Estates, Project No. ENG-S-00011, in the amount of \$399,829 from Urban Engineers Group, Inc. for the Engineering Department; and authorizing the City Manager to execute all necessary documents. Approved

#### **BACKGROUND**

The Engineering Department recommends approval of an expenditure in the amount of \$399,829 for engineering professional services from Urban Engineers Group, Inc., for the Screening Wall Replacement - Stone Lake Estates, Project No. ENG-S-00011. This project includes the removal and replacement of approximately 3,800 linear feet of screening wall in the Stone Lake Estates neighborhood at the following locations:

- Beaver Creek to Tiburon Drive on the east side of Parkwood Boulevard. (approx.1,200 LF)
- 2. Tiburon Drive to West Plano Parkway on the east side of Parkwood Boulevard (approx. 950 LF)
- 3. Parkwood Boulevard to Balcones Drive on the north side of Plano Parkway (approx. 1,250 LF)
- 4. East side of Balcones Drive, on the north side of Plano Parkway (approx.400 LF)

Urban Engineers Group, Inc., was deemed most qualified based on their Statement of Qualifications submission for RFQ No. 2021-0377-XR. In addition, Urban Engineers Group has exhibited success on multiple prior screening wall design projects along Ohio Drive, Hedgcoxe Drive, Woodburn Corners, Amelia Court, Park Boulevard, Parker Road, and Legacy Drive. They also have extensive experience in structural foundation design, geotechnical analysis, and surveying and subsurface utility exploration, all necessary elements to successful completion of this specific project.

The benefit of this project includes reconstruction of deteriorating neighborhood screening walls.

Not approving the expenditure would result in continued deterioration of neighborhood infrastructure, including screening walls, resulting in increased maintenance costs and a reduction of the quality of life for neighboring residents.

#### FINANCIAL SUMMARY/STRATEGIC GOALS

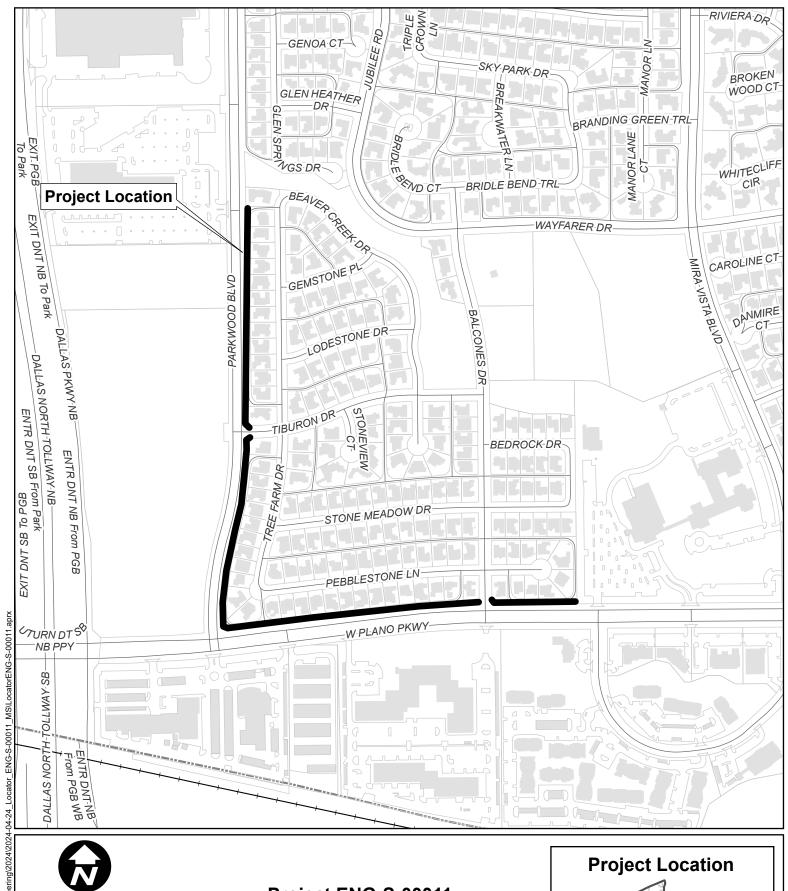

Funding for this item is available in the 2023-24 Street Improvements CIP and is planned for future years, as well. Engineering professional services for the Screening Wall Replacement - Stone Lake Estates

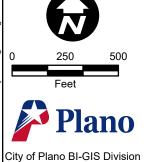

project, in the total amount of \$399,829, will leave a current year balance of \$25,000 for future expenditures.

Recent indicators suggest that economic activity has been expanding at a solid pace. Job gains have remained strong, and the unemployment rate has remained low. Inflation has eased over the past year but remains elevated.

The Committee seeks to achieve maximum employment and inflation at the rate of 2 percent over the longer run. The Committee judges that the risks to achieving its employment and inflation goals are moving into better balance. The economic outlook is uncertain, and the Committee remains highly attentive to inflation risks.

In support of its goals, the Committee decided to maintain the target range for the federal funds rate at 5-1/4 to 5-1/2 percent. In considering any adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee does not expect it will be appropriate to reduce the target range until it has gained greater confidence that inflation is moving sustainably toward 2 percent. In addition, the Committee will continue reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities, as described in its previously announced plans. The Committee is strongly committed to returning inflation to its 2 percent objective.

In assessing the appropriate stance of monetary policy, the Committee will continue to monitor the implications of incoming information for the economic outlook. The Committee would be prepared to adjust the stance of monetary policy as appropriate if risks emerge that could impede the attainment of the Committee's goals. (1) Weighted average life - For purposes of calculating weighted average life bank, pool, and money market investments are assumed to mature the next business day.

(2) Weighted average yield to maturity - The weighted average yield to maturity is based on adjusted book value, realized and unrealized gains/losses and investment advisory fees are not considered. The yield is for this month only.

#### Moody's Ratings Definitions:

AAA- obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk

AA- obligations rated Aa are judged to be of high quality and are subject to very low credit risk

A- obligations rated A are judged to be upper-medium grade and are subject to low credit risk

(the modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking;

and the modifier 3 indicates a ranking in the lower end of that generic rating category)

MIG1 (Municipal Investment Grade) Short-Term Obligation- Superior Credit Quality

MIG2 (Municipal Investment Grade) Short-Term Obligation- Strong Credit Quality

MIG3 (Municipal Investment Grade) Short-Term Obligation- Acceptable Credit Quality

P1- Issuers rated Prime-1 have a superior ability to repay short-term debt obligations

P2- Issuers rated Prime-1 have a strong ability to repay short-term debt obligations

P3- Issuers rated Prime-1 have an acceptable ability to repay short-term debt obligations

#### \*Standard and Poor's Ratings Definitions:

AAA- capacity to meet its financial commitment on the obligation is extremely strong

#### **Zoning Case 2024-009**

An Ordinance of the City of Plano, Texas, amending the Comprehensive Zoning Ordinance of the City, Ordinance No. 2015-5-2, as heretofore amended, so as to amend Planned Development-64-Central Business-1 to modify development standards for mid-rise residential on 137.3 acres of land out of the J.C. Barrow Survey, Abstract No. 91, the G.R. Martin Survey, Abstract No. 622, the Collin County School Land Survey No. 6, Abstract No. 149, the J. Digman Survey, Abstract No. 279, and the H.N. Thompson Survey, Abstract No. 896, located at the northwest corner of the Dallas North Tollway and Headquarters Drive within the Dallas North Tollway Overlay District in the City of Plano, Collin County, Texas; directing a change accordingly in the official zoning map of the City; and providing a penalty clause, a repealer clause, a savings clause, a severability clause, a publication clause, and an effective date.

WHEREAS, the City Secretary of Plano, Texas, directed that notices of a hearing be issued, as required by the Zoning Ordinance of the City of Plano and laws of the State of Texas, at a meeting of the City Council, to be held on the 28th day of May 2024, for the purpose of considering amending Planned Development-64-Central Business-1 to modify development standards for mid-rise residential on 137.3 acres of land out of the J.C. Barrow Survey, Abstract No. 91, the G.R. Martin Survey, Abstract No. 622, the Collin County School Land Survey No. 6, Abstract No. 149, the J. Digman Survey, Abstract No. 279, and the H.N. Thompson Survey, Abstract No. 896, located at the northwest corner of the Dallas North Tollway and Headquarters Drive within the Dallas North Tollway Overlay District in the City of Plano, Collin County, Texas; and

WHEREAS, the City Secretary of said City accordingly caused to be issued and published the notices required by its Zoning Ordinance and laws of the State of Texas applicable thereto, the same having been published in a paper of general circulation in the City of Plano, Texas, at least fifteen (15) days prior to the time set for such hearing; and

**WHEREAS**, the City Council of said City, pursuant to such notice, held its public hearing and heard all persons wishing to be heard both for and against the aforesaid change in the Zoning Ordinance, on the 28th day of May 2024; and

WHEREAS, the City Council is of the opinion and finds that such rezoning, as amended by the stipulations agreed upon during the public hearing, would not be detrimental to the public health, safety, or general welfare, and will promote the best and most orderly development of the properties affected thereby, and to be affected thereby, in the City of Plano, and as well, the owners and occupants thereof, and the City generally; and

**WHEREAS**, the City Council authorized this Ordinance to be executed without further consideration, consistent with the stipulated restrictions presented at the hearing.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF PLANO, TEXAS, THAT:

<u>Section I.</u> The Comprehensive Zoning Ordinance of the City, Ordinance No. 2015-5-2, as the same has been heretofore amended, is hereby further amended so as to amend Planned Development-64-Central Business-1 to modify development standards for mid-rise residential on 137.3 acres of land out of the J.C. Barrow Survey, Abstract No. 91, the G.R. Martin Survey, Abstract No. 622, the Collin County School Land Survey No. 6, Abstract No. 149, the J. Digman Survey, Abstract No. 279, and the H.N. Thompson Survey, Abstract No. 896, located at the northwest corner of the Dallas North Tollway and Headquarters Drive within the Dallas North Tollway Overlay District in the City of Plano, Collin County, Texas, said property being described in the legal description on Exhibit A attached hereto.

<u>Section II</u>. The modified development standards of Planned Development-64-Central Business-1 are hereby amended, according to the stipulations agreed upon during the public hearing, as described below:

#### Restrictions:

The permitted uses and standards shall be in accordance with the Central Business-1 (CB-1) zoning district unless otherwise specified herein.

- 1. Mid-rise residential is an additional permitted use subject to the following standards:
  - a. A maximum of 13 acres may be developed as mid-rise residential.
  - b. Mid-rise residential is prohibited within 400 feet of the right-of-way line of S.H. 121 and the Dallas North Tollway.
  - c. The site located at the northeast corner of Windrose Avenue and Columbus Avenue may be developed with the following restrictions:
    - i. The maximum number of units is 177.
    - ii. A parking structure must be located between the residential units and the frontage road of the Dallas North Tollway, the design of which must conform to the Multifamily Site & Massing Study dated December 5, 2023.
    - iii. 50% of all units on the western and southern facades must have a true balcony to create outdoor living space.
    - iv. All ground floor units facing the northern, western, and southern facades are to have stoops or patios.
    - v. No building facade may exceed a length of 100 feet without a break in the facade of a minimum depth of 5 feet and a minimum length of 10 feet.
    - vi. A minimum of two benches, trash receptacles, and/or bicycle racks, or any combination thereof, must be provided every 200 linear feet along the public ways.

- vii. Intake openings for outdoor air, as defined in the adopted International Mechanical Code, as amended, must be located on the southern, western, and northern exterior facades and the courtyard facades.
- viii. Pollution and Noise Mitigation Measures The following standards must be used during initial construction and must be added as notes to the site plan. The Building Official or designee may substitute equivalent or superior construction methods upon replacement or reconstruction, consistent with building code requirements.
  - 1. All ventilation units will be "outdoor-air sourced."
  - 2. Each "outdoor-air sourced" mechanical ventilation unit must contain a filter box on its air intake side with a MERV 13 filter, based on American Society of Heating, Refrigerating, and Air-Conditioning (ASHRAE) Engineers.
  - 3. No balconies above the ground floor on the northern facade.
- d. Maximum Density: None
- e. Building Height: A maximum of 400 units may be constructed at a minimum height of 5 stories, except that additional units may be constructed at 5 stories in accordance with Section 1.c. above. The remaining units must be constructed at a minimum of 7 stories.
- f. Maximum Number of Dwelling Units: 1,000

#### 2. Open Space

- a. The open space exhibit is adopted as part of this ordinance.
- b. Usable public open space must be provided in an amount not less than 2.5 acres as defined in the open space exhibit.
- c. Useable open space must be accessible to the public at all times and must not be fenced.
- d. Useable open space must have a minimum dimension of 30 feet long by 30 feet wide.

<u>Section III</u>. It is directed that the official zoning map of the City of Plano (which is retained in electronic record format) be changed to reflect the zoning classification established by this Ordinance.

<u>Section IV</u>. All provisions of the ordinances of the City of Plano in conflict with the provisions of this Ordinance are hereby repealed, and all other provisions of the Ordinances of the City of Plano not in conflict with the provisions of this Ordinance shall remain in full force and effect.

<u>Section V</u>. The repeal of any ordinance or part of ordinances effectuated by the enactment of this Ordinance shall not be construed as abandoning any action now pending under or by virtue of such ordinance or as discontinuing, abating, modifying or altering any penalty accruing or to accrue, or as affecting any rights of the municipality under any section or provisions of any ordinance at the time of passage of this Ordinance.

**Section VI.** Any violation of the provisions or terms of this ordinance by any person, firm or corporation shall be a misdemeanor offense and shall be subject to a fine in accordance with Section 1-4(a) of the City Code of Ordinances for each offense. Every day a violation continues shall constitute a separate offense.

**Section VII.** It is the intention of the City Council that this Ordinance, and every provision hereof, shall be considered severable, and the invalidity or partial invalidity of any section, clause or provision of this Ordinance shall not affect the validity of any other portion of this Ordinance.

<u>Section VIII</u>. This Ordinance shall become effective immediately upon its passage and publication as required by law.

PASSED AND APPROVED on the 28th day of May 2024.

#### **RESULTS:**

The Commission recommended the item for approval subject to the following amendments to the stipulations (additions are indicated by underline; deletions are indicated by strike-through):

#### Restrictions:

The permitted uses and standards shall be in accordance with the Central Business-1 (CB-1) zoning district unless otherwise specified herein.

- 1. Mid-rise residential is an additional permitted use subject to the following standards:
  - a. A maximum of 13 acres may be developed as mid-rise residential.
  - b. Mid-rise residential is prohibited within 400 feet of the right-of-way line of S.H. 121 and the Dallas North Tollway, except for the site located on the southeast corner of Windrose Ave and S.H. 121, which may be developed as mid-rise residential with the following restrictions:

- c. <u>The site located at the northeast corner of Windrose Avenue and Columbus Avenue may be developed with the following restrictions:</u>
  - i. The maximum number of units is 177.
  - ii. Minimum setback from northern and eastern property lines: 40 feet.
  - ii. A parking structure must be located between the residential units and the frontage road of the Dallas North Tollway, the design of which must conform to the Multifamily Site & Massing Study dated December 5, 2023.
  - iii. 50% of all units on the western and southern facades must have a true balcony to create outdoor living space.
  - iv. All ground floor units facing the northern, western, and southern facades are to have stoops or patios.
  - v. No building facade may exceed a length of 100 feet without a break in the facade of a minimum depth of 5 feet for a minimum length of 10 feet.
  - vi. A minimum of two benches, trash receptacles, and/or bicycle racks, or any combination thereof, must be provided every 200 linear feet along the public ways.
  - vii. Intake openings for outdoor air, as defined in the adopted International Mechanical Code, as amended, must be located on the southern, and/or western, and northern exterior facades and the courtyard facades.
  - viii. Pollution <u>and Noise</u> Mitigation Measures The following standards must be used during initial construction and must be added as notes to the site plan. The Building Official or designee may substitute equivalent or superior construction methods upon replacement or reconstruction, consistent with building code requirements.
    - 1. Mechanical ventilation must exceed the building code as follows:
      - a. All ventilation units will be "outdoor air-sourced."
      - b. Units will be installed on the roof of the buildings with air intakes "ducted" to the southernmost elevation of the building.
    - 2. All ventilations units will be "outdoor air-sourced."
      - Each "outdoor-air sourced" mechanical ventilation unit must contain a filter box on its air-intake side.
      - b. These filter boxes must contain a filter (or combination of filters in "series"), capable of filtering outdoor airborne "particulates" to the MERV 16 standard or greater, based on American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) ratings.
    - 1. All ventilation units will be "outdoor-air sourced."

- Each "outdoor-air sourced" mechanical ventilation unit must contain a filter box on its air-intake side with a MERV 13 filter, based on American Society of Heating, Refrigerating, and Air-Conditioning (ASHRAE) Engineers.
- 3. No balconies above the ground floor on the northern facade.
- ix. Noise Mitigation Measures The following standards must be used during initial construction and must be added as notes to the site plan. The Building Official or designee may substitute equivalent or superior construction methods upon replacement or reconstruction, consistent with building code requirements.
  - 1. Construction documents sealed by an architect must be provided as part of the building construction plan set that details mitigation of the interior noise at each unit to a maximum level of 45 dBA. The engineer of record will be responsible for testing the interior noise and providing a noise study for all units to the Building Inspections Department prior to final building inspection.
  - 2. The minimum height for individual balcony is 4 feet. The minimum height for the pool terrace will be 5 feet. Laminated glass will be used in the railings.
- c. Maximum Density: None
- d. Building Height: A maximum of 400 units may be constructed at a minimum height of 5 stories, except that additional units may be constructed at 5 stories in accordance with Section 1.c. above. The remaining units must be constructed at a minimum of 7 stories.
- e. Maximum Number of Dwelling Units: 1,000

#### 2. Open Space

- a. The open space exhibit is adopted as part of this ordinance.
- b. Usable public open space must be provided in an amount not less than 2.5 acres as defined in the open space exhibit.
- c. Useable open space must be accessible to the public at all times and must not be fenced.
- d. Useable open space must have a minimum dimension of 30 feet long by 30 feet wide.

### **PLANNING & ZONING COMMISSION**

STAFF PRELIMINARY REPORT: MAY 6, 2024

**AGENDA ITEM NO. 3A** 

**PUBLIC HEARING:** Zoning Case 2024-009

PETITIONER: Liberty Mutual Plano, LLC

CASE PLANNER: Donna Sepulvado

**DESCRIPTION:** Request to amend Planned Development-64-Central Business-1 to modify development standards for mid-rise residential on 137.3 acres located at the northwest corner of the Dallas North Tollway and Headquarters Drive within the Dallas North Tollway Overlay District. Project #ZC2024-009.

#### **EXECUTIVE SUMMARY:**

The purpose of the request is to consider amendments to Planned Development-64-Central Business-1 (PD-64-CB-1), which is currently developed with several corporate offices and residential developments. The applicant has acquired the rights to the 177 remaining units in the Planned Development (PD) and intends to relocate them to a lot located at the northeast corner of Windrose and Columbus Avenues. The units are already permitted by-right at this location if constructed at a minimum of 7 stories in height; however, the applicant is requesting to reduce the minimum height to 5 stories and include new architectural standards requiring balconies, stoops, and other street activation. On March 18, 2024, the Planning & Zoning Commission called a public hearing to amend PD-64-CB-1 for this purpose.

Major topics of consideration in this request include:

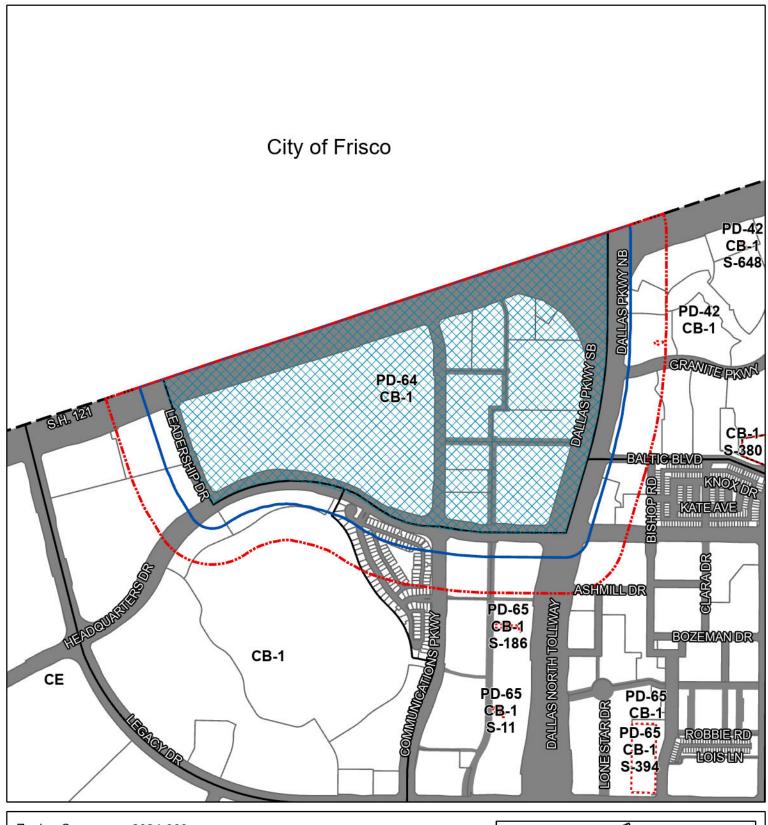

- Mid-Rise Residential 177 units are currently permitted by-right on the tract, so long as they are
  more than 400 feet away from the Dallas North Tollway and a minimum of 7 stories in height.
  The applicant intends to meet the separation requirement; therefore, the primary purpose of the
  request is to reduce the minimum height to 5 stories. No additional units are being requested
  above the 1,000 total units originally approved.
- Noise and Air Pollution Mitigation The subject property is located within areas protected by the Expressway Corridor Environmental Health Map; however, the units are already permitted by current zoning, and an EHA analysis is not required as part of this request. To mitigate potential impacts, the applicant is proposing PD stipulations that limit balcony placement, require a parking garage to buffer the residential units, and standards for air filtration and ventilation.
- Building Height and Street Activation PD-64-CB-1 currently requires the remaining 177 units
  to be constructed at 7 stories. This requirement was originally established in 2014 because
  building codes at the time required 7-story buildings to be constructed with higher-quality
  materials, such as steel and concrete. Changes to the building codes resulting from improved
  construction methods have since nullified the intent of this standard. As a result, the applicant

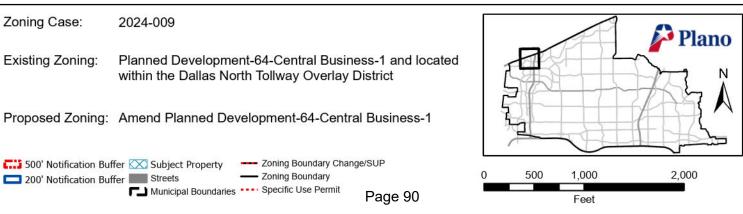

is requesting to reduce the minimum height to 5 stories. Staff is in support of this change with the proposed PD stipulations relating to patios, stoops, balconies, facade design, and street furniture intended to maintain ground-floor activity and contribute to a pedestrian-friendly environment.

 Conformance to the Comprehensive Plan – The subject property is located within the Urban Activity Centers (UA) category on the Future Land Use Map, which is for areas designated for significant development or redevelopment with high-intensity mixed-use activity centers attracting large corporations, specialty shopping, dining, and entertainment, and high-density residential development. This request is consistent with the Comprehensive Plan.

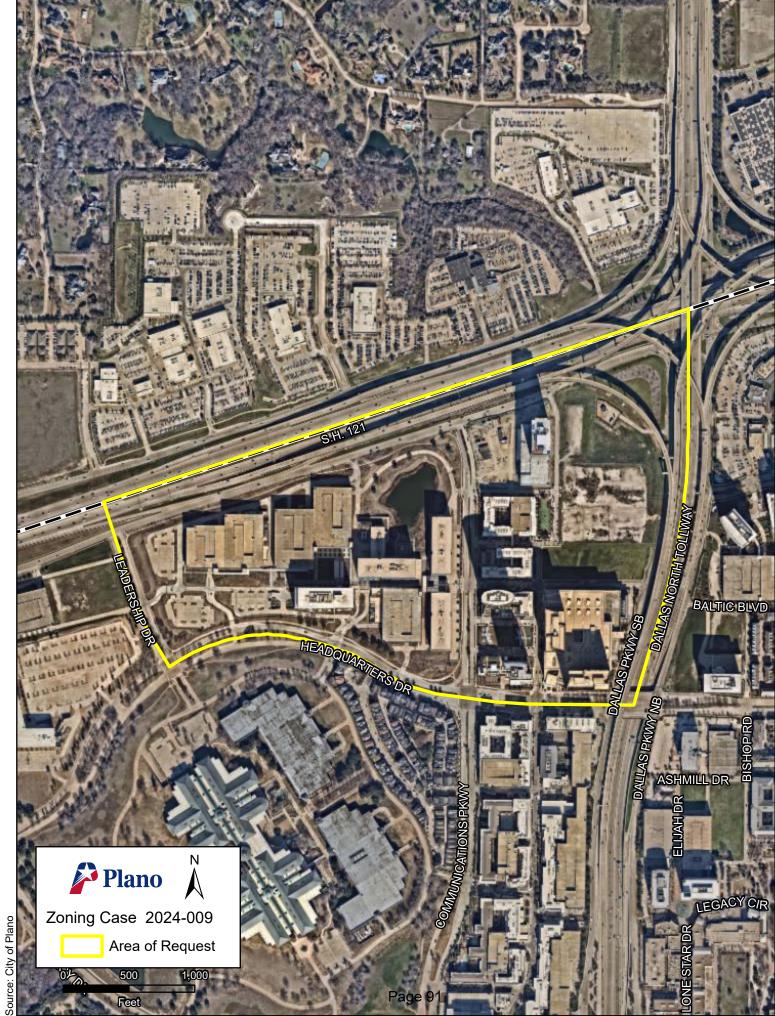

For these reasons, staff is supportive of the request.

A revised concept plan accompanies this request as Agenda Item No. 3B.

#### STAFF PRELIMINARY REPORT – HISTORY AND INTRODUCTORY REMARKS

The applicant is requesting to amend Planned Development-64-Central Business-1 (PD-64-CB-1) to modify development standards related to mid-rise residential.

Zoning – Section 10.900 of the Zoning Ordinance states the purpose for the CB-1 district as follows:

Central Business-1 (CB-1): The CB-1 district is intended for use in conjunction with the [Commercial Employment (CE)] district to permit a highly concentrated business center similar to traditional downtown areas of major cities.

<u>Mid-Rise Residential</u> – Section 8.200 (Terms Defined) of the Zoning Ordinance defines Mid-Rise Residential as follows:

Mid-Rise Residential: Buildings containing not less than five floors designed for residential occupancy and including accessory uses including but not limited to parking garages, recreational amenities, meeting space, storage, and personal services. A mid-rise residential development may include a mix of residential and non-residential uses in the same structure.

<u>Planned Developments</u> – A Planned Development (PD) district provides the ability to amend use, height, setback, and other development standards at the time of zoning to promote innovative design and better development controls appropriate to both off and onsite conditions. Section 12.100 (Purpose) of Article 12 (Planned Development District) of the Zoning Ordinance guides the establishment of planned development districts. This section states that planned developments are intended for the following purposes:

- 1. To protect and provide for the public health, safety, and general welfare of the city.
- 2. To guide the future development of the city in accordance with the Comprehensive Plan.
- 3. To accommodate innovation by modifying regulations to better accomplish the city's development goals.
- 4. To mitigate developmental impacts, especially those related to the environment, traffic, public services and facilities, and adjacent and area land uses.
- 5. To protect and enhance the aesthetic and visual quality of development.

#### PD-64-CB-1 History

PD-64-CB-1 was initially established in 2014, in association with amendments to PD-65-CB-1, as part of the rezoning for the Legacy West development. These PDs are companion zoning districts that share standards for open space, with PD-65-CB-1 inclusive of the areas commonly referred to as The Shops at Legacy and the remaining portions of Legacy West (outside PD-64-CB-1). When originally established in 2014, PD-64-CB-1 included an allowance for up to 1,000 mid-rise residential units on 10 acres. These units were required to be located 700 feet or more from the Dallas North Tollway and State Highway 121 to allow a separation of residential units from the expressways. It also required the units to be a minimum building height of seven stories to provide diversity of housing options and, at the time, resulted in specific construction standards under the building code.

Amendments to the PD in 2015 and 2016 increased the acreage to 13 acres, reduced the setback from expressways to 400 feet, and allowed 400 of the 1,000 total units to have a minimum height of 5 stories. Of the 1,000 units originally approved, 823 have been constructed, leaving 177 units remaining:

Windsor Metro West: 394 units, 5 stories

LVL29: 101 units, 29-stories

Windrose Tower: 328 units, 27 stories

In June 2022, the most recent amendments to PD-64-CB-1 were approved, which granted an exception to the 400-foot separation from the adjacent expressways for the remaining 177 units. This exception was specific to the tract of land located at the southeast corner of Windrose Avenue and State Highway 121 (shown in orange on the map to the right) and required additional air pollution and noise mitigation protections.

Below is a summary of those changes with a comparison to the changes proposed as part of this request. No changes to the other PD-64-CB-1 standards related to open space are proposed.

Mid-Rise Residential Standards	2014 (Original)	2015 Amendments	2016 Amendments	2022 Amendments	2024 (Proposed)
Max. Units	1,000	1,000	1,000	1,000	1,000
Max. Density	None	None	None	None	None
Max. Acreage	10	10	13	13	13
Min. Height	7story	7-story	Up to 400 units at 5-story, the rest at 7-story	Up to 400 units at 5-story, the rest at 7-story	Up to 577 units at 5-story, the rest at 7-story
Min. Setback from SH 121 and DNT	700 feet	450 feet	400 feet	400 feet, with exceptions for one specific lot	400 feet

#### Planned Development Stipulations

PD-64-CB-1 stipulations are proposed to be amended as follows (additions are indicated by underline; deletions are indicated by strike-through):

#### Restrictions:

The permitted uses and standards shall be in accordance with the Central Business-1 (CB-1) zoning district unless otherwise specified herein.

- 1. Mid-rise residential is an additional permitted use subject to the following standards:
  - a. A maximum of 13 acres may be developed as mid-rise residential.
  - b. Mid-rise residential is prohibited within 400 feet of the right-of-way line of S.H. 121 and the Dallas North Tollway, except for the site located on the southeast corner of Windrose

- Ave and S.H. 121, which may be developed as mid-rise residential with the following restrictions:
- c. The site located at the northeast corner of Windrose Avenue and Columbus Avenue may be developed with the following restrictions:
  - i. The maximum number of units is 177.
  - ii. Minimum setback from northern and eastern property lines: 40 feet.
  - ii. A parking structure must be located between the residential units and the frontage road of the Dallas North Tollway, the design of which must conform to the Multifamily Site & Massing Study dated December 5, 2023.
  - iii. 50% of all units on the western and southern facades must have a true balcony to create outdoor living space.
  - iv. All ground floor units facing the northern, western, and southern facades are to have stoops or patios.
  - v. No building facade may exceed a length of 100 feet without a break in the facade of a minimum depth of 5 feet for a minimum length of 10 feet.
  - vi. A minimum of two benches, trash receptacles, and/or bicycle racks, or any combination thereof, must be provided every 200 linear feet along the public ways.
  - vii. Intake openings for outdoor air, as defined in the adopted International Mechanical Code, as amended, must be located on the southern, and/or-western, and northern exterior facades and the courtyard facades.
  - viii. Pollution <u>and Noise Mitigation Measures</u> The following standards must be used during initial construction and must be added as notes to the site plan. The Building Official or designee may substitute equivalent or superior construction methods upon replacement or reconstruction, consistent with building code requirements.
    - 1. Mechanical ventilation must exceed the building code as follows:
      - a. All ventilation units will be "outdoor air-sourced."
      - b. Units will be installed on the roof of the buildings with air intakes "ducted" to the southernmost elevation of the building.
    - 2. All ventilations units will be "outdoor air-sourced."
      - a. Each "outdoor-air sourced" mechanical ventilation unit must contain a filter box on its air-intake side.

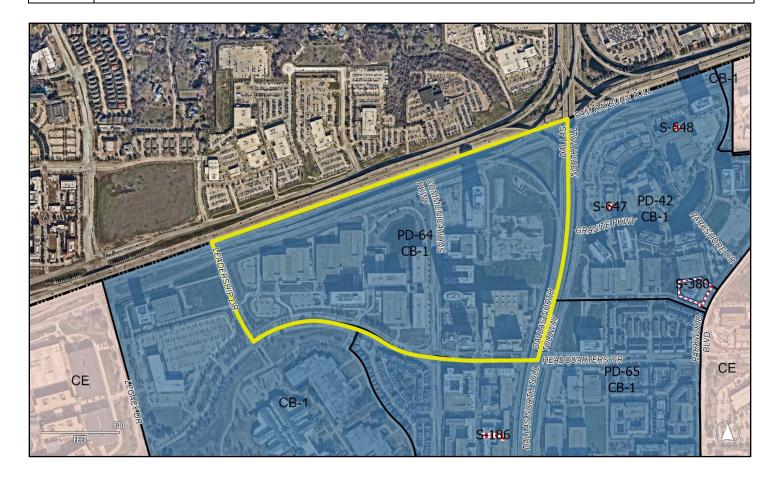

- b. These filter boxes must contain a filter (or combination of filters in "series"), capable of filtering outdoor airborne "particulates" to the MERV 16 standard or greater, based on American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) ratings.
- 1. All ventilation units will be "outdoor-air sourced."
- 2. Each "outdoor-air sourced" mechanical ventilation unit must contain a filter box on its air-intake side with a MERV 13 filter, based on American Society of Heating, Refrigerating, and Air-Conditioning (ASHRAE) Engineers.
- 3. No balconies above the ground floor on the northern facade.
- ix. Noise Mitigation Measures The following standards must be used during initial construction and must be added as notes to the site plan. The Building Official or designee may substitute equivalent or superior construction methods upon replacement or reconstruction, consistent with building code requirements.
  - 1.—
    Construction documents sealed by an architect must be provided as part of the building construction plan set that details mitigation of the interior noise at each unit to a maximum level of 45 dBA. The engineer of record will be responsible for testing the interior noise and providing a noise study for all units to the Building Inspections Department prior to final building inspection.
  - 2. The minimum height for individual balcony is 4 feet. The minimum height for the pool terrace will be 5 feet. Laminated-glass will be used in the railings.
- c. Maximum Density: None
- d. Building Height: A maximum of 400 units may be constructed at a minimum height of 5 stories, except that additional units may be constructed at 5 stories in accordance with Section 1.c. above. The remaining units must be constructed at a minimum of 7 stories.
- e. Maximum Number of Dwelling Units: 1,000

#### 2. Open Space

- a. The open space exhibit is adopted as part of this ordinance.
- b. Usable public open space must be provided in an amount not less than 2.5 acres as defined in the open space exhibit.
- c. Useable open space must be accessible to the public at all times and must not be fenced.
- d. Useable open space must have a minimum dimension of 30 feet long by 30 feet wide.

VISION: "Plano is a global leader, excelling in exceptional education, abounding with world class businesses and vibrant neighborhoods" GUIDING PRINCIPLES: Plano Today. Plano 2050. Plano Together.

### 1 | Future Land Use Map

Planned Development-64-Central Business-1 (PD-64-CB-1) is located in the Employment Centers (EM) and Urban Activity Centers (UA) future land use designations. Changes request with this zoning case are focused in the UA designation only.

### **Urban Activity Centers (UA)**

The Urban Activity Centers future land use category applies to areas designated for significant development or redevelopment with high intensity mixed-use activity centers attracting large corporations, specialty shopping, dining, and entertainment, and high density residential development. These areas are typically a minimum of 100 acres and include mid- to high-rise buildings with a compact block structure, and human-scale street and building design, which create a highly walkable urban form.

Complete Neighborhoods - Uses should be highly integrated, creating self-contained neighborhoods with a variety of housing types, convenient access to jobs, active open spaces, bicycle and pedestrian connections, cultural activities, and supporting services. Parking structures should be provided to reduce surface parking and encourage efficient use of land. Where possible, these areas should incorporate principles of Transit-Oriented Development to accommodate future transit connections.

Design Standards - These areas will be developed on the principles of mixed-use and urban form, creating active and engaging social hubs for residents and visitors. Structured parking and high-rise buildings will allow maximum efficiency of the land, while also providing active, usable open space with plazas, fountains, public art, and linear greenspaces.

#### **PRIORITIES**

- Attracting corporate headquarters and promoting economic development
- 2. High standards for mixed-use form, amenities, and open space
- 3. Providing amenities in early phases of development.

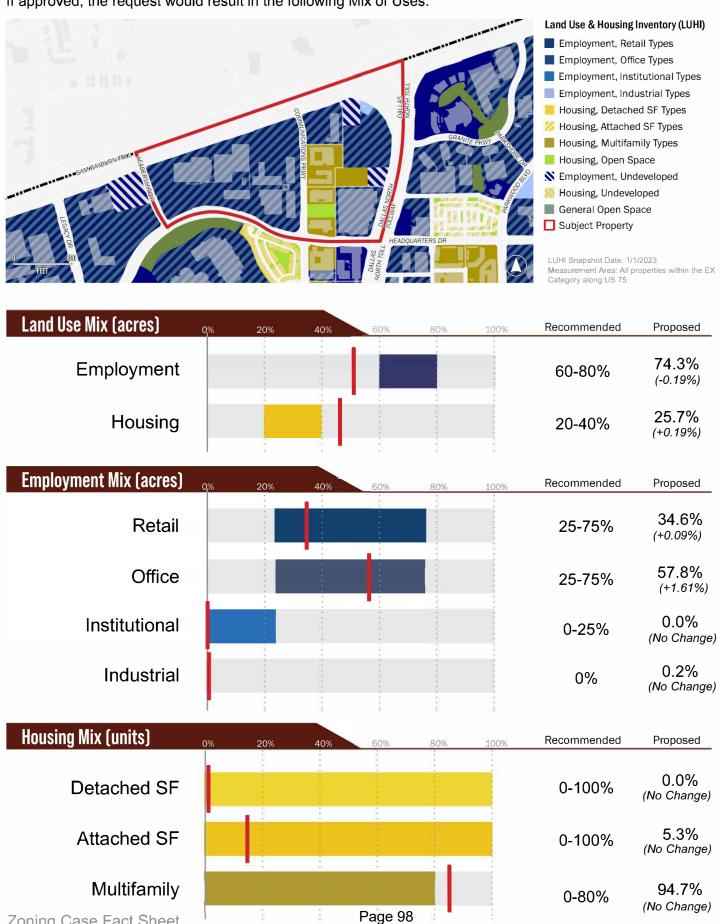

### 2 | Mix of Uses

**Zoning Case Fact Sheet** 

If approved, the request would result in the following Mix of Uses:

# 3 | Desirable Character Defining Elements

Multimodal Access		
1. Automobiles	MEDIUM: May require short walk to destination	HIGH: Direct access from Windrose Avenue, Columbus Avenue, and Wilmont Avenue.
2. Transit	HIGH: Integrated bus and rail when possible	HIGH: DART Bus Route #241 stop is located 0.25 miles south of the site along Headquarters Drive. The site is located within the Legacy West GoLink Shuttle Zone which provides on-demand curb-to-curb service. Additionally, rail service is not possible as there are no existing rail services in the area.
3. Micromobility	HIGH: Integrated bike routes and trails	HIGH: On-Street Bike Route #80 and #13 are located south of the subject site respectively, along Headquarters Drive and Communications Parkway. A trail is proposed along Headquarters Drive east of Dallas North Tollway.
4. Pedestrians	HIGH: Highly Walkable	HIGH: Sidewalks and crosswalks provide pedestrian connectivity to Windrose Avenue, the PD-64-CB-1 site as a whole, and Legacy West directly to the south of the site.

#### STAFF PRELIMINARY REPORT – CONFORMANCE TO THE COMPREHENSIVE PLAN

The proposed request has been reviewed for conformance with the Comprehensive Plan. Major factors included in the analysis are provided below, but the Comprehensive Plan Fact Sheet has more specific details about the request.

<u>Guiding Principles</u> – This set of Guiding Principles to the Comprehensive Plan establishes overarching themes that apply to all policies and actions and express values for Plano Today, Plano 2050, and Plano Together. Since the principles do not stand alone but are used in concert with one another and carry across the Plan as a whole, each principle must be judged through a lens that incorporates all other principles to be fully and accurately understood. As such, the Commission is encouraged to review the full list of Guiding Principles and judge zoning requests through the lens of all principles.

#### **Future Land Use Map Category & Dashboard**

<u>Future Land Use Map & Dashboards</u> – The boundary of PD-64-CB-1 is within the <u>Employment Centers</u> (EM) and <u>Urban Activity Centers</u> (UA) categories of the Future Land Use Map. However, the subject site and requested changes apply only to the portion of the property within the UA designation. The applicant's request generally meets the description and priorities of the UA category.

<u>Mix of Uses</u> – The request as proposed does not alter the maximum number of units permitted in PD-64-CB-1, therefore, there are no changes to the Housing Mix of Uses for this area. With the slight change in acreages from the previous location to the proposed location for the remaining units, there are marginal changes to the Land Use Mix and Employment Mix.

#### Other Comprehensive Plan Maps

PD-64-CB-1 includes both EHA-1 and EHA-2 of the Expressway Corridor Environmental Health Map. The mid-rise units are located more than 400 feet from the right-of-way of Dallas North Tollway, consistent with the setback for residential units required by the PD but still within EHA-1. To provide mitigation, the PD stipulations require a parking garage to buffer the residential units, "outdoor-air sourced" ventilation units, MERV 13 or greater filter boxes, and restricting balconies above the ground floor on the northern facade. Thus, the request is providing mitigation which will provide additional conformance to the Expressway Corridor Environmental Health Map.

The request does not require any improvements related to the Thoroughfare Plan Map, Bicycle Transportation Plan Map, or Parks Master Plan Map.

#### **Policies & Actions of the Comprehensive Plan and Other Studies**

<u>Undeveloped Land Policy</u> – The proposed zoning change will modify the location for the remaining 177 mid-rise residential units from the site located at the southeast corner of State Highway 121 and Windrose Avenue and construct them at the site located at the northwest corner of the Dallas North Tollway and Columbus Avenue. Staff finds that the relocation could be beneficial to the PD-64-CB-1 site as a whole, as Lot 9R, located at the southeast corner of State Highway 121 and Windrose Avenue may be better suited for employment use due to its proximity and access to State Highway 121. Additionally, the request is consistent with the Future Land Use Map and other Comprehensive Plan standards, as previously mentioned. Therefore, this request is in conformance with the Undeveloped Land Policy.

<u>Adequacy of Public Facilities</u> – Water and sanitary sewer services are available to serve the subject property.

Traffic Impact Analysis (TIA) – A TIA is not required for this rezoning request.

<u>Public Safety Response Time</u> — Fire emergency response times will be sufficient to serve the site based on existing personnel, equipment, and facilities.

### Access to and Availability of Amenities and Services

Parks: The subject property is located within Park Fee Service Area 14.

Libraries: The subject property is located within the Parr Library's service area, and service to future residents would be possible with the current library resources.

Minimum Building Height: The 177 proposed mid-rise residential units are currently allowed by-right at this location if constructed at a minimum height of 7 stories and located 400 feet away from the Dallas North Tollway. As the applicant intends to meet the 400-foot setback requirement, the only substantive change requested is to lower the minimum height from 7 stories to 5 stories. Staff was initially reluctant to support this change, as the 7-story minimum was established to require steel and concrete construction methods (at the time, building codes restricted wood-frame construction to five stories above a single ground-floor concrete podium). However, changes to the building code now allow for multi-story podiums, effectively nullifying the intent of requiring seven stories. The applicant could meet the existing 7-story requirement by constructing a multi-story, concrete podium with parking at the ground level. However, ground-level parking would not foster the street activity and pedestrian-friendly environment intended for this mixed-use area. It would also limit the protections the parking garage will provide from the effects of the Dallas North Tollway. Therefore, staff supports the request with PD stipulations that require a percentage of ground-floor residential units to include exterior entrances with a stoop or patio (see Street Activation section below).

<u>Setbacks from Expressways/Mitigation Measures</u>: Since 2016, PD-64-CB-1 has required a setback of 400 feet from the Dallas North Tollway and State Highway 121 to protect residents from noise and air quality impacts. This setback was established prior to the creation of the city's Expressway Corridor Environmental Health Map in 2017, which now guides the development of residential and other sensitive land uses within proximity of the expressways. In 2022, an exception to the 400-foot setback was approved for the parcel at the southeast corner of Windrose Avenue and State Highway 121, with requirements to provide noise and air pollution mitigation measures. As the newly proposed location does not require the same exception, it will be removed from the PD stipulations. The original 400-foot setback will still apply.

The applicant is proposing to maintain similar noise and air pollution mitigations to those originally approved for the previous location. These include requiring all ventilation to be "outdoor-air sourced," prohibiting intake openings for outdoor air on the eastern side of the building facing the Dallas North Tollway, providing MERV 13 filters in the mechanical ventilation, and limiting balconies on the northern side of the building. The residential units must also be buffered by a parking garage that complies with the Multifamily Site & Massing Study provided to the city.

<u>Street Activation</u>: To support the change from 7 stories to 5 stories, the applicant is proposing PD stipulations relating to patios, stoops, balconies, facade design, and street furniture to contribute to the pedestrian realm. The proposed PD stipulations aim to ensure that the height reduction does not compromise the quality of the built environment or the pedestrian experience. By requiring these elements, the applicant seeks to create an inviting urban environment that benefits both residents and the surrounding community.

<u>Setbacks</u>: The PD stipulations include the removal of a 40-foot setback from the northern and eastern property lines which were specific to the previously-planned site at the southeast corner of State Highway 121 and Windrose Avenue. They are no longer needed and will be removed.

#### SUMMARY:

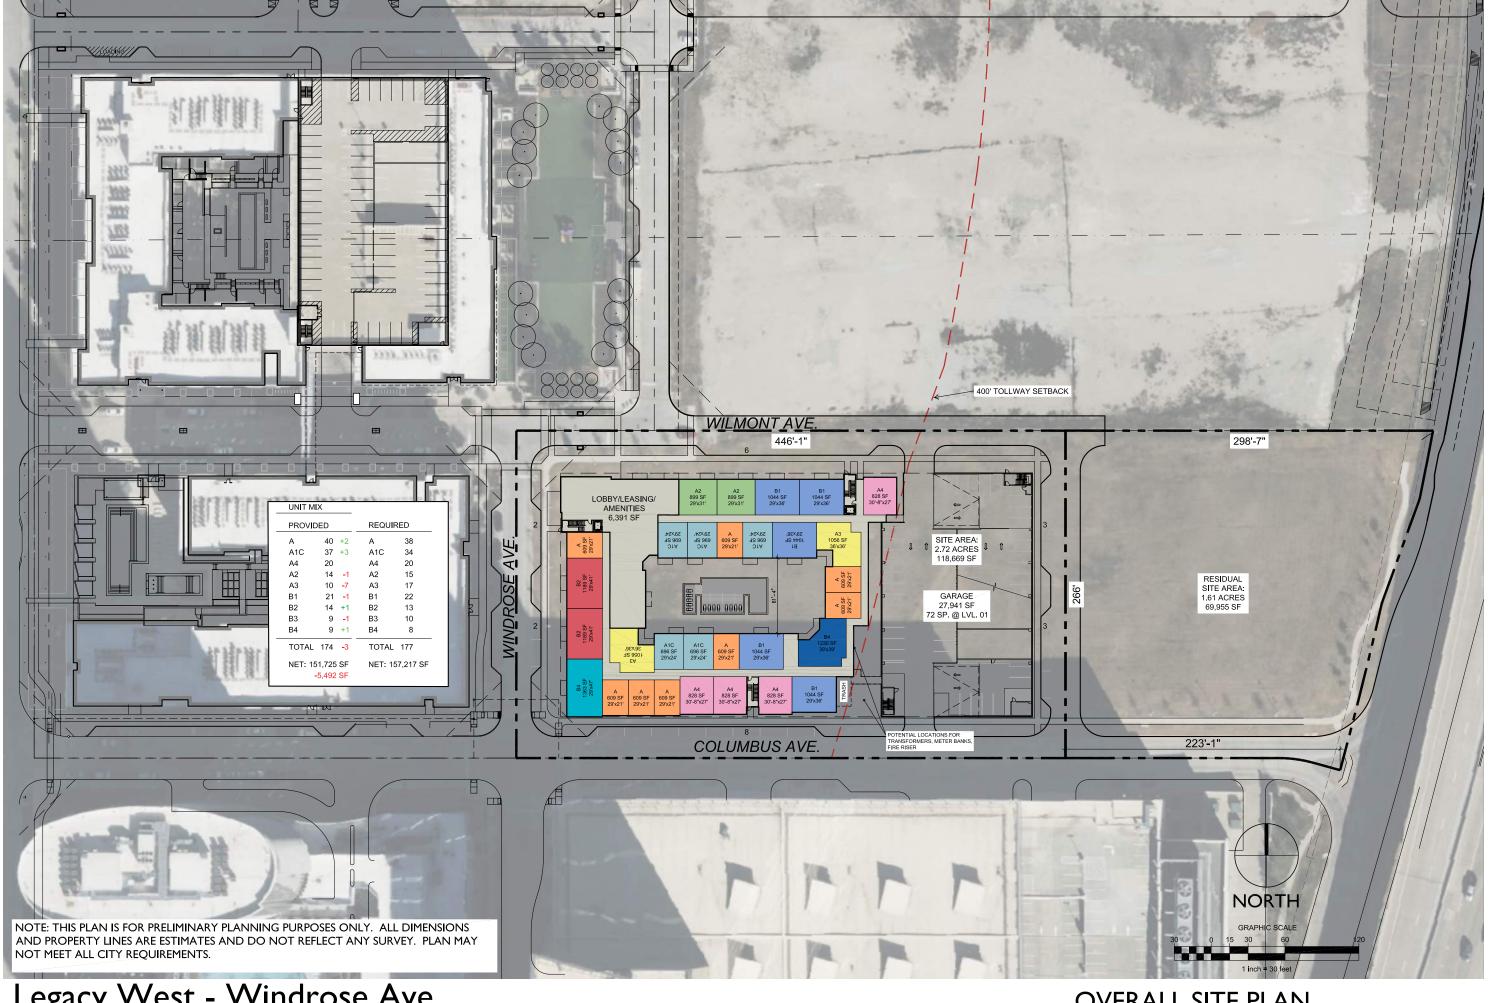

In summary, the applicant's request entails relocating 177 mid-rise residential units from the southeast corner of State Highway 121 and Windrose Avenue to the northwest corner of the Dallas North Tollway and Columbus Avenue. The current zoning allows for the construction of these units at the new site, but the applicant proposes reducing the height requirement for these units from 7 stories to 5 stories and introducing street activation requirements and other protections. The request is in conformance with the recommendations and policies of the Comprehensive Plan. For these reasons, staff is supportive of the request.
